

The Kingston Daily Freeman

FOUNDED IN 1871.

CITY OF KINGSTON, N. Y., FRIDAY EVENING, SEPTEMBER 2, 1927.

PRICE FOUR CENTS.

Noted Guests at Kingston Sesqui To Be Entertained

Governor and Mrs. Smith to be guests of Dr. and Mrs. Chandler, Senator Wadsworth to be guest of Mr. and Mrs. Philip Eltinge—Commemorative Medal Described.

The committee on the laying of the cornerstone of the state's new museum in the Senate House grounds and the striking of the medal commemorative of the 150th anniversary of the inauguration of the State Government at Kingston met on Thursday afternoon. It is composed of the following members: Edward Coykendall, Hon. Walter P. Crane, Mrs. V. B. Van Wagonen, Louis Boeres, James M. Murphy, Dr. John C. Gillette, Hon. John U. Gillette, Lamont Simpkins, Rev. Ignatius Bialdysa, Delancy N. Mathews, Arthur McCausland, Hon. Roscoe Irwin, Frank Coykendall, Miss Jane Madden, Joel Brink, A. T. Clearwater.

The Clinton Medal. Judge Clearwater, the chairman of the committee, presented a photograph of the medal designed by Charles Keck, the most distinguished living American medalist. The medal was designed by Mr. Keck from the suggestion of the judge. The obverse contains a portrait of Governor Clinton in the undress uniform of a Major General of the Continental Army, and the legend on the reverse is "First Governor of New York, George Clinton, the reverse depicts the old Court House in which the Constitution was adopted on the 20th of April, 1777, and which was burned by the British forces under the command of Major General John Vaughan on the 16th of October, 1777. The legend surrounding the building reads "To commemorate the Sesqui-Centennial of the founding of the Government of the State of New York at Kingston, New York, July 30, 1777-1927."

This medal is pronounced to be the finest and most beautiful of any of the Sesqui-Centennial medals that have been made. Mr. Keck is a distinguished sculptor who has been decorated by the National Academy of Design, and the American Academy in Rome. He was the first winner of the Prix de Rome in open competition in 1899; received the gold medal for sculpture from the Architectural League of New York in 1926; designed and installed the monument to George Washington at Buenos Aires, the U. S. Maine Memorial tablet for the United States Government; the Lewis and Clark Memorial tablet, the Equestrian monument of Stonewall Jackson, the Friendship Monument of United States, Rio Janeiro, Brazil; the Liberty Monument at Ticonderoga. He is a member of many American and National Art and Architectural Associations.

The design for the Kingston medal was approved by the Hon. Sullivan W. Jones, state architect, and Robert W. DeForest, president of the Metropolitan Museum of Art. Bronze copies of this medal will be distributed to the various universities and colleges of the United States, a copy in gold will be presented to Governor Smith on his visit to Kingston on the 10th of September.

Entertaining Distinguished Guests. Judge Clearwater stated that the following arrangement had been made for the entertainment of the distinguished visitors to Kingston who will be entertained as follows: Governor and Mrs. Alfred E. Smith by Dr. and Mrs. Chandler, Senator James W. Wadsworth and Mrs. Wadsworth by the Hon. and Mrs. Philip Eltinge, President of the Senate and Mrs. John Knight by Senator Arthur S. Wick, Speaker of the Assembly and Mrs. Joseph A. McGinley by Assemblyman Millard H. Davis.

Reservations for a number of the Regents of the University and for state officials have been made at the Hotel Stuyvesant. Prominent visitors from various sections of the country have secured reservations at the Stuyvesant and at the Governor Clinton. Altogether, Kingston promises to house a greater number of notable than at any time in its history since the adoption of the Constitution in 1777.

LEWINE MAY START IF WEATHER IS FAVORABLE. London, Sept. 2 (AP).—Whether Charles A. Levine takes off on an attempted return flight to America tomorrow depends largely on the weather reports and on news regarding the British monoplane St. Raphael, he said today.

Dutchess Fair Has No Rain Insurance

Contrary to Policy of Former Years Fair Officials Decided to Take a Chance on the Weather—20,000 Attempted Wednesday Afternoon.

The Dutchess county fair, which will not close until Saturday night due to the two days of heavy rain this week, is not covered by rain insurance this year as in former years. The reason that the fair officials decided to take a chance on the weather this year is explained by the Poughkeepsie Evening Star in the following manner:

Through a change in policy, Fair officials are carrying no rain insurance this year, although it has rained at some time during each of three days of the fair. Formerly the fair was heavily covered by rain insurance. This year, however, rain insurance policies were changed to work on a comparative basis with the gate receipts.

For example, if the fair officials took out rain insurance of \$1,000 a day for the week of the fair, they would not get the \$1,000 unless not a single person attended the fair. The only policies available are for the difference between the gate receipts for the day and the amount of the policy.

If the gate receipts were \$990, which is not bad for a poor day, then the fair officials would get only the difference between the policy \$1,000 and the receipts, 990, or \$10. Since much more than \$10 a thousand, the executive committee decided to "take a chance" and bet on good weather. At least one attendance record has been broken despite the worst efforts of the weather man. The afternoon crowd of Wednesday, exceeding 20,000, broke all previous records of fair history. Because of the shower the evening crowd failed to come up to expectations, so that the crowd for the day was slightly less than the best crowd for any single day in fair history.

More Dry Agents For Great Lakes

Investigation of Capabilities of Dry Administrator for Oregon and Washington is Held in Abeyance.

Washington, Sept. 2 (AP).—While a greatly increased force of prohibition agents was in prospect today for the Great Lakes section of the Canadian border, the investigation of treasury officials into the capabilities of Roy C. Lyle as prohibition administrator for Oregon and Washington was held in abeyance, awaiting the arrival here of Mrs. Mabel Walker Wilbrandt, assistant attorney general in charge of liquor law prosecutions, who is to take up the reported exchange of money between rum runners and enforcement agents of Lyle's territory.

Almost simultaneously with the announcement yesterday that a decision in the Lyle case would not be forthcoming for a week or ten days, Assistant Secretary Lowman, following his previous assertion that the border patrol would be increased from 200 to 400 men, he would make a "substantial increase" in the patrol force along the 224 miles of shore front. Thirty additional agents will be assigned to Detroit, he said.

Ultra Dry Wanted On Liquor Charge

Chicago, Sept. 2 (AP).—Alfred H. Pouse, who was elected state's attorney of McHenry county three years ago on an "ultra dry" ticket, was a fugitive today from a warrant charging liquor law violation.

Five others have been arrested, including former Sheriff Lester Eddinger of McHenry county and Postmaster N. F. Steilen of Woodstock. The others, said to be resort keepers, are Jacob Bickler, Stephen Helmer and Fred Justen. Two other warrants, besides that naming Pouse, also have been issued.

Pouse, who disappeared Sunday after cashing an \$800 salary voucher, left letters saying he would never be back and blaming politics for implicating him in a country-wide beer running protection ring.

Pride of Detroit Leaves for Bagdad

Constantinople, Sept. 2 (AP).—The American round the world plane, Pride of Detroit, hopped off here today for Aleppo and Bagdad. The six men, William S. Brock and Edward F. Schies, hoped to reach Bagdad about 1,075 miles from Constantinople late in the afternoon.

Brock and Schies reached Constantinople from Belgrade Wednesday and immediately became involved in Turkish red tape, which would not permit them to take off on the next lap of their flight until authorization was given by the Turkish military authorities at Angora.

Eleven Fliers Have Been Lost

So Far This Season as a Result of Attempted Ocean Flights—This Does Not Include Princess and Her Two Companions, Who Are Long Over Due.

New York, Sept. 2 (AP).—The 52-year-old Princess Ann Lowenstein-Wertheim is the second woman to disappear in an attempted trans-oceanic flight within two weeks. The first was Miss Mildred Doran, passenger in one of the planes participating in the Dole prize race from Oakland, Cal., to Hawaii.

A list of those fliers, other than the Princess and companions, Captain Leslie Hamilton and Colonel F. P. Mitchin, who have disappeared at sea during the present flying season, follows:

Captain Charles Nungesser and Captain Francis Coll left Le Bourget May 8 for New York, in a flight to the Orteig prize, subsequently won by Colonel Charles A. Lindbergh. Captain Saint Roman and Commander Mounier left St. Louis, Senegal, May 5 for Pernambuco on a flight from France to Buenos Aires. John A. Pedlar of Flint, Mich., Lieut. C. R. Knope, navigator and Miss Mildred Doran, Michigan school teacher, in the plane Miss Doran, left Oakland August 16 for Hawaii in the Dole prize flight.

Jack Frost of New York and Gordon Scott of Santa Monica, navigator, left Oakland August 16 for Hawaii in the Dole prize flight. William P. Erwin of Chicago and Alvin H. Echweldt, left Oakland August 18 in search of missing competitors in the Dole flight.

French Biplane Is Forced Back

Heavy Fog Over French Countryside Forces Bluebird to Turn Back—May Start Again Saturday.

Le Bourget, Sept. 2 (AP).—Fog hanging heavy over the French countryside, balked the biplane Bluebird's attempt to fly to New York today.

The giant plane, manned by Leon Givon and Pierre Corbu, after a beautiful takeoff at 6:31 a. m., was back over Le Bourget in less than two hours. Then for almost another full hour Givon circled the field, hoping the haze would lighten, but when it remained still thick at nine o'clock, he began emptying his gasoline tanks.

By ten, the load had been reduced from 9,600 litres (about 2,500 gallons) to 4,000 litres (1,060 gallons) and the lightened ship was landed gracefully, her pilot and navigator bitterly disappointed over their failure.

The Bluebird had proceeded about ninety miles when she turned back. The plane was then over the rolling country between Rambouillet and Rennes.

Givon explained that with the heavy load—the plane weighed twelve tons—its ceiling at times was 460 meters (about 1,350 feet). He could not get higher, as would have been necessary to avoid flying blindly through the haze. The stabilizer was working none too well, which increased the danger of flying through the fog.

Want Coolidge To Be a Farmer

Black Hills Residents Anxious to Have President Come Back and Live With Them After He Retires From the Presidency.

Rapid City, S. D., Sept. 2 (AP).—The people of the Black Hills want President Coolidge to come and live among them after he leaves the White House and he himself has admitted that through their generosity he is fully equipped to become a South Dakota farmer.

He was joking, of course, when he referred in an informal speech at Nisland yesterday to the possibility of his essaying the role of country gentleman out here, but the folks who heard him picked up the suggestion with such enthusiasm that it seemed as if they wanted him to be serious about it.

If their presents are indicative, the Black Hills people are doing their share to make the President a farmer. For his birthday he was presented with a horse. At Nisland he was presented with a pair of pure bred sheep which caused him to remark that these "round out just what I need to become a farmer in South Dakota."

Judge Nichols to Preside. On account of the illness of Judge G. D. B. Hasbrouck the regular special term of the Supreme court will be presided over by Judge Nichols Saturday.

Barber Shops Close Monday. Monday, Labor Day, being a holiday, the barber shops of this city will be closed all day.

Carling Plane's Start Is Delayed

Aviators Fear They Will Run Into More Fog and as a Result Delay Start of Flight to Harbor Grace and London Until Saturday.

Caribou, Maine, Sept. 2 (AP).—The plane Sir John Carling, which landed in a field in the town of Washburn, six miles from here, last night, probably will remain until tomorrow before attempting to resume their flight from London, Ont., to Harbor Grace, N. F., and thence to London, England.

Captain Terry Tully and Lieutenant James Medcalf found it raining when they arose this morning.

"We don't mind the rain," said Captain Tully, "but it looks as if we would run into the same fog that forced us back yesterday, if we tried to take off today. I figure that we covered about 900 miles in the air yesterday and most of the time we were trying to dodge the fog. We plan to start for Harbor Grace as soon as we can reasonably sure of clear weather, but there's no occasion for hurry as we haven't any set schedule."

Relating yesterday's experiences, Captain Tully said:

"When we hit the St. Lawrence river valley, we ran into heavy fog. To get away from it we decided to leave the river and take a course farther south. This brought us over Maine. We had to fly pretty high to get over Mt. Katahdin and some of the other mountains."

"We struck clear weather over Aroostook county and kept on across New Brunswick. As nearly as we could tell, we crossed Prince Edward Island and got 30 or 40 miles out to sea in the direction of Newfoundland, but the fog was so dense that we feared we couldn't find Harbor Grace, where we had planned to land to refuel our plane before starting across the Atlantic."

"So we turned back. We flew as high as 7,500 feet trying to get above the fog and then came down close to the ground to get below it. But we couldn't get away from it until we got nearly to the New Brunswick-Maine border."

"We found ourselves back in Aroostook county and seeing the great expanse of level potato farming country, with few trees, we cleared the forests on the outskirts and flying low spotted the field in Washburn which seemed to be the most promising landing place. There we came down and the field was so smooth that we hardly bumped."

Arrest Three in Pool Room Fracas

Edward Smythe, John Carter and Charles Oberkirch Arrested Charged With Hitting Steven Kaslich With a Pool Cue—Hearing Adjourned.

Steven Kaslich appeared in police court this morning with bandages on his head to press a charge of assault against Edward Smythe, John Carter and Charles Oberkirch, following a fracas in the Kaslich pool room on the top floor of the Clermont Building at Wall and John streets shortly after 8 o'clock Thursday evening. Kaslich, who had been struck over the head and body with pool cues, had several stitches taken to close the wound on his head at the Kingston City Hospital.

The fracas broke out shortly after 8 o'clock and a crowd soon gathered when Steven thrust his head out of the window of the pool room and began calling for help. He presented a rather gruesome sight as blood was streaming down his face from the wounds on his head, and his shirt was bloody.

The police were called and began working on the case which resulted in the arrest of the three men. From what the three said this morning in police headquarters the trouble had started several nights ago when Smythe had told the proprietor of the pool room that he would pay the fifty cents he owed him later in the week.

Smythe claims that Wednesday night while he was on his way home on Albany avenue that a man had stepped out from behind a tree and assaulted him, beating him up.

Thursday evening Smythe, accompanied by his uncle, John Carter, had gone to the pool room to see about the assault Wednesday night, and a little later the fracas started in which pool cues were used.

As Judge Shufeldt had done legal work for one of the men arrested he transferred the hearing of the assault case to Special City Judge A. H. Van Buren and a hearing will be held later.

Royal Windsor May Start Today

St. Johns, Que., Sept. 2 (AP).—The monoplane Royal Windsor will not be able to hop off before 5 o'clock this afternoon owing to newly discovered damage to the tail skid, the pilots announced.

Pilot Schiller went to Montreal to obtain new parts of the tail skid. He expected to be back here by 2 o'clock and it was expected it would not require more than an hour to have the plane ready to take the air. There is plenty of gasoline aboard to carry the plane to England, Wood said.

Mrs. Dodge and Officer Married

Former Wife of Wealthy Automobile Manufacturer Is Married in Honolulu on Thursday.

Honolulu, Sept. 2 (AP).—Hawaii today furnished the setting for a romance in which Mrs. Lois Knowlton Dodge, divorced wife of Horace E. Dodge, scion of the wealthy Detroit automobile, and Lieutenant Benjamin Franklin Manning of the army, began their honeymoon.

They were married here yesterday under the ritual of the Methodist Episcopal Church at the home of Kenneth Harlan, motion picture actor.

Manning is attached to the coast artillery at Fort Ruger, near Honolulu. This is his second marriage. His first wife was killed in an automobile accident last New Year's Eve.

Mrs. Dodge obtained her final decree of divorce last May after Dodge made a spectacular race from Paris to Honolulu by airplane, steamer and automobile in an attempt to effect a reconciliation. Mr. and Mrs. Dodge returned to San Francisco, she going to Los Angeles and he to Detroit.

After the divorce Mrs. Dodge lived in Los Angeles until about two months ago, when she made a hurried trip to Honolulu. This trip placed immediately after the death here of Lt. C. L. Williams, army aviator who perished when his plane went into the sea during a farewell demonstration for Lieutenants Lester J. Matland and Albert Hegenberger, first aviators to fly from the mainland. Rumors were circulated to the effect that Mrs. Dodge had been engaged to Lieutenant Williams, but these were denied by their friends.

Two Fighters Are Fined \$15

Harry O'Hara and William Flannigan, Employed on a Construction Job Along Creek Front, Arrested on North Front Street—Other Cases.

Thursday afternoon the police were called to Ponckhockie where a fight was in progress but the fighters had made their escape by the time the police arrived. That evening about 9:30 o'clock Harry O'Hara and William Flannigan, two men from out of town who are employed on a construction job on the Rondout creek front, were picked up by Officers Schick and Fitzgerald charged with disorderly conduct. According to the police they were the same men in the mixup on East Strand. Both men resisted arrest but were quickly subdued by the officers. This morning Judge Shufeldt in police court fined them \$15 each. They paid their fines and returned to their job.

Coal Conveyor Fell on Larkin

Freight Handler on Central Hudson Line Injured in Peculiar Accident When a Coal Elevator Fell on Him—Removed to Benedictine Hospital.

Robert Larkin, a freight handler on one of the boats of the Central Hudson Line, was injured in a peculiar accident about 7 o'clock this morning when a coal conveyor on the Central Hudson dock fell on him. The city ambulance was called and the man removed to the Benedictine Hospital, where he was attended by Dr. Frank L. Eastman. An X-ray will be taken to determine the extent of injury to one of his legs.

It was stated that Larkin was busy unloading freight from the vessel moored at the dock and that the coal conveyor that stood near a soft coal pile suddenly toppled over, pinning him under it. It is not believed that his injuries will prove serious.

Mayor Walker Arrives in Venice

Venice, Italy, Sept. 2 (AP).—Mayor Walker of New York, with Mrs. Walker and their party arrived here today from Munich, Germany. A series of entertainments has been planned in their honor.

The arrival of the mayor's party was marked by a friendly demonstration in which Count Pietro Orsi, Podesta of Venice, and representatives of the Perfect and the Fascist party participated.

From the station the visitors were conducted to the historic municipal gondola, and taken through the Grand Canal.

Heavy Rainfall Causes Trouble

Kingston and Vicinity Visited by Heavy Downpours—Wind Blows Down Wires—Highways Flooded and Autos Become Stalled.

After a steady rain lasting all day Kingston and surrounding country was visited by a heavy downpour shortly after 3 o'clock Thursday afternoon. For over an hour rain fell in torrents and the streets were flooded. In many sections of the city the water basins were flooded and miniature lakes were formed. In several sections of the city branches were blown from trees and wires were down in places and for a time power was off in several sections of the city. A large branch was blown from a tree on the Fourth property on Pearl street and the service wire was carried down.

Throughout the country districts the rain was equally as hard and within a few minutes the smaller brooks and streams were raging torrents. In many sections the highways were flooded and small bridges endangered. On the Kingston-Ellenville road near Accord where a temporary bridge is in use water flooded the bridge and there was fear the bridge might go out.

Wednesday afternoon there was a very heavy rainfall along the Hurley mountains which caused several washouts and endangered small bridges as the water ran in torrents from the mountainside. The storm, which might be called a cloudburst, cut a strip to the west of Kingston and passed between Kingston and West Hurley. People who were caught on the road during the storm say they never saw a more severe rain. Many traveling in cars were stalled along the road by reason of water getting into distributors or other vital parts of their motor cars.

Late in the afternoon while County Clerk John Sax was returning to his home in West Hurley he passed many cars still stalled and in a number of places west of the city the water was still flowing across the road while many of the small brooks and rills were roaring creeks.

Calles Addresses Mexican Congress

Refers to Disputes Between United States and His Country—Also Mentions Religious Question.

Mexico City, Sept. 2 (AP).—Referring to the differences that exist between Mexico and the United States over Mexico's land and petroleum legislation, in his annual message at the opening session of Congress last night, President Calles voiced the hope that an amicable settlement would be reached. Mexico was willing, he declared, to consider in a spirit of justice and equity any concrete cases of aggression that might be presented.

Up to the present time, however, he added, there had not been called to the government's attention "concrete actions that evidently constitute aggressions or rejections to foreign capital invested in the oil industry," while on the other hand, foreign capital had shown "activities, the contumacy and disrespect of which no independent country can admit."

As for the religious question in Mexico, the chief executive declared it "can be said the religious conflict caused by the rebellious clergy now has practically concluded, for the laws have been complied with despite the futile resistance of the clergy."

"The Mexican people," he added, "have shown themselves indifferent to the suspension of services."

Part Time School Registration Days

Registration for part time school will be on Tuesday, Wednesday and Friday, September 5, 7 and 9, from 10 a. m. until 4 p. m., in the basement of School No. 6, O'Neil street.

All boys and girls of 14, 15 and 16 years of age and those of 17 years who have to make up time and who are not already registered in school for this term will be required to register. The school authorities would appreciate the cooperation of employees in notifying those who come under the part time school plan of the time and place to register.

Mayor Walker Arrives in Venice

Venice, Italy, Sept. 2 (AP).—Mayor Walker of New York, with Mrs. Walker and their party arrived here today from Munich, Germany. A series of entertainments has been planned in their honor.

The arrival of the mayor's party was marked by a friendly demonstration in which Count Pietro Orsi, Podesta of Venice, and representatives of the Perfect and the Fascist party participated.

From the station the visitors were conducted to the historic municipal gondola, and taken through the Grand Canal.

Prepare to Hunt Over Land and Sea

Plane Containing Aged Princess Is Long Overdue—Fuel Could Have Lasted Only 41 Hours—Light Houses and Radio Stations Kept Vain Vigil Thursday Night.

Ottawa, Sept. 2 (AP).—Anxious eyes today gazed toward the Atlantic and the Newfoundland wilderness to learn the fate of England's flying princess and her two daring escorts of the air. Long over due in its 2,029 mile flight from Upavon, England, to Ottawa, the monoplane St. Raphael, carrying Princess Lowenstein-Wertheim, Captain Leslie Hamilton and Colonel Frederick F. Mitchin, held the attention of two continents as a warning hope for its safe arrival gave way to preparations for a hunt over land and sea.

Fuel Limit Has Expired. The most generous estimates of the plane's fuel supply gave it a flying period of forty-four hours beyond accident, but at 10:30 o'clock last night—the expiration of the estimated fuel limit—no word had been received from the craft. The plane hopped off at 7:30 o'clock (London time or 1:30 o'clock eastern standard time) Wednesday morning. Captain Hamilton had estimated he would make the trip in 37 hours.

Lighthouses Keep Vigil

Lighthouses dotting the northeastern Atlantic coast kept a vain vigil through the night while radio stations listened intently for the cheering messages that did not come. Flares penetrated the darkness about flying fields to guide the plane to a landing in case it reaches Newfoundland behind schedule.

Constant vigil through the day in Newfoundland was ended at midnight local time (9:30 p. m. eastern standard time). The signal station above St. John's was closed, believing a further watch hopeless.

Many Wait at Field

Throngs at Lindbergh Field, the destination of the St. Raphael, waited patiently through the day. Mrs. Hamilton, the young wife of the co-pilot of the St. Raphael, was confident and cheerful despite the absence of news of the plane since it was reported passing out to sea off the Irish coast at noon Wednesday. She sat through the long night eagerly snatching every bit of news furnished by the Canadian Government Air Force and the newspapers. Later at night, accompanied by J. A. Wilson, controller of civil aviation, she visited the airport where the plane was to have landed.

Crowds Anxious for News

Crowds formed in the street outside her hotel awaiting news of the fliers, while newspaper bulletins were eagerly scanned. Hundreds waited for hours at the air field in hope of seeing the plane arrive.

WILL OF KANSAS CITY EDITOR FILED FOR PROBATE

Kansas City, Sept. 2 (AP).—The will of Irwin Kirkwood, late editor of the Kansas City Star, was filed for probate here today. It was executed August 1 and disposed of an estate estimated at one and a half million dollars.

After leaving approximately \$170,000 in personal bequests, \$250,000 was left to three trustees for the purpose of building an art gallery to house objects of art provided for in the will of William Rockhill Nelson or to buy objects of art for the gallery. Funds for the building of a gallery already have been provided in the wills of Mrs. Nelson and their daughter, Mrs. Laura Nelson Kirkwood.

The residue of the estate was divided equally between Mr. Kirkwood's two brothers, John S. Kirkwood, Washington, and Thone Kirkwood, Baltimore.

One provision of the will confirmed and extended the agreement between Kirkwood and his associates whereby the Kirkwood stock holdings in the Star could be purchased by the nearly 100 stockholders within the Star organization. The period of time for the exercise of the right of purchase was extended from three months to ten months after the stock is deposited with the Kansas City Star Company by the executor.

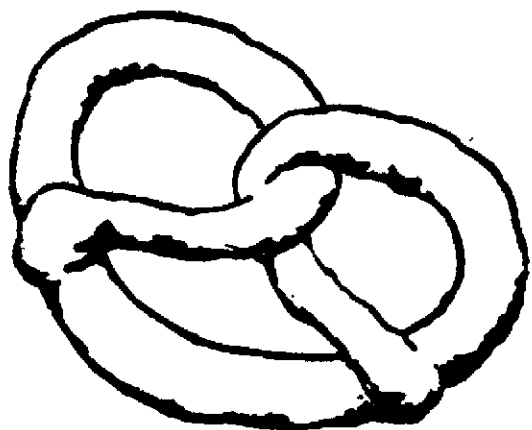

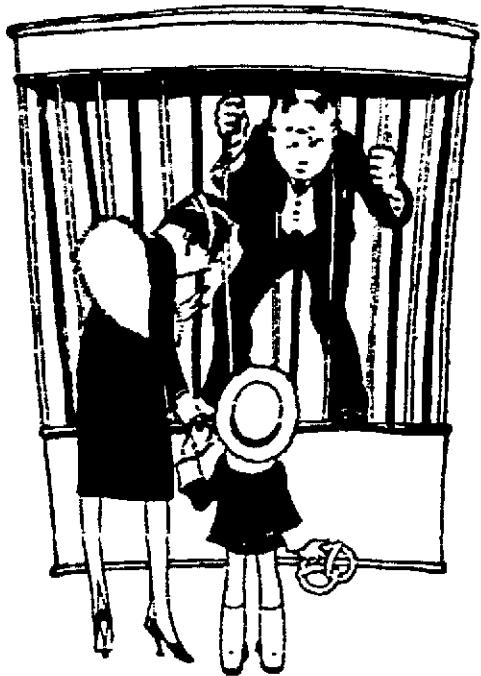

AT 103 YEARS, WOMAN VISITS COUNTY FAIR

For one who hasn't been a child for a matter of a century, a little recreation goes quite well. Grandma Farley, resident of the Poughkeepsie city home, concluded after an automobile ride to Rhinebeck Wednesday.

Grandma Farley, who is Mrs. Rosanna Farley, is just about old enough to be naturally called "grandma" by the other residents of the home. She is 103. Despite her years, she withstood and enjoyed the ride as much as the others who were guests on their annual outing of the board of charities, the Poughkeepsie Sunshine Society and the Kiwanis Club. When she returned, Grandma declared she felt "sorry that ever" and ate her share of ice cream and cake with the others.

Grandma's trip to Rhinebeck was her first visit to that village in 50 years and she remarked the "old place has changed some."

Bite yourself an Alphabet

Isn't it better to be a Pretzeleer?

"Mama, see the funny man. What's he in there for?"

"Why Willie, he is a cu-ri-os-ity."

"Mama, what's a cu-ri-os-ity?"

"A cu-ri-os-ity, Willie, is a person who doesn't like pretzels."

And breaking out a paper bag of O-So-Guds mama began to bite and Willie to nibble and soon they had spelled for the man.

O-SO-GUD

That's an eating word if there ever was one, for it's the name of those crispy, crunchy, salty, twisty Uneeda Bakers' pretzels that everyone but a cu-ri-os-ity likes so well.

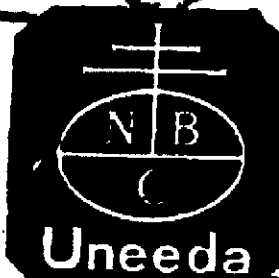

They're good with cooliced drinks. With soup, with salad, with dessert. They're good on picnics and between meals and at parties. They're good for children. Easy to digest.

Uneeda Bakers bake them. Grocers in every neighborhood sell them.

O-SO-GUD PRETZELS

O-So-Guds are brown, crisp and salty. They bite with a nice crackle, and they have a taste that's like nothing in the world but an O-So-Gud pretzel. Sold by the pound.

SLIM JIM

A handy companion for a walk in a box of Slim Jim Pretzel Sticks. They are good, cheerful eating.

NATIONAL BISCUIT COMPANY
"Uneeda Bakers"

Kiwanis to Aid Historical Drama

The gloom of the rainy noon hour had no effect on the members of the Kiwanis Club as they dined at the Governor Clinton Hotel Thursday. Two unusually interesting addresses, a spirited program of songs under the leadership of the irrepressible Paul Zucca and the burning of confederates, as the various committees on Kiwanis Kapers met after the luncheon, were the features.

Miss A. Halsey, under the auspices of the New York State Department of Education and delegated to direct the historical drama in connection with the Sequel-Centennial Celebration to be held here on September 10, outlined briefly the program of the drama and urged Kiwanians to participate. A meeting is to be held in the Court House this evening and a number of the club members signified their intention to enter the cast.

Major Raymond Marsh, of the Ordnance Department of the United States Army, was the second speaker. Major Marsh is a native of Kingston, having graduated from West Point in 1906, and from West Point in 1914, and is now stationed at the United States Army Proving Grounds at Aberdeen, Maryland. He indicated in a general way the scope of the Ordnance Department and the problems confronting it. Post war developments in equipment of the fighting forces have shown remarkable progress, the speaker asserted, in every direction, except that of automotive department. He stressed the fact that the foreign ordnance officers frequently expressed surprise that our military automotive equipment was so far behind our developments in the same field for commercial purposes.

Charles Behrens won the attendance prize. An unusual number of out of town visitors were present.

Thrifty Man Spends in Right Direction

"I've blown in \$5,000," remarked the cheap-looking fellow as he figured with a stub pencil on the back of a dirty envelope.

"Must have had a heck of a time," suggested a member of the party. "Just to have \$5,000 to blow in would give me a kick."

"No. I never had the \$5,000 at once and I didn't get any kick out of it. The best I ever got was a \$10 kick and mostly it was quarters and half dollars. I just figured that I blew this \$5,000 in during the last ten years. It averaged about \$10 a week. Not much of a good time out of \$10."

The old-time spender's story has a lesson in it. It is easy to spend ten \$10 bills separately. But if you have the ten bills all at once, the \$100 isn't so easily blown in.

A \$100 bill is something to invest rather than to spend. It suggests the possibility of investment, rather than dissipation. When saving up the \$100 you also get out of the cheap spending habit. Two bits, a half, six bits, a dollar, all take on new values once you begin to learn that taken together in quantities they really amount to something. Petty and thriftless spending loses its appeal.

Thrift is a habit easily acquired. It doesn't necessarily mean cheapness nor niggardiness, nor tightness. It means only that you spend in the right direction.

Not many people, unless they keep books on themselves, realize how much they spend uselessly. It goes to such small amounts that they lose sight of the totals. It is in the main waste.

The price of a new chair, a library lamp, needed silverware or some other bit of furniture or electrical appliance for the home is often "blown in," for nothing at all.—Chicago American.

"Treasure Island" Inn Named for Real Person

Every reader of "Treasure Island" knows of Admiral Benbow inn, but few probably are aware of the admiral whose character inspired Stevenson to give it the name. John Benbow, a fiery young daredevil, entered the British merchant service very early in life, and finding that the seas were infested with pirates proceeded to make it unpleasant for the swaggering cutthroats with a violence equal to their own methods. He is said to have pickled the heads of a crew of Saltee pirates he had captured and then to have taken them to Cadiz.

Walking up to the tables where sat magistrates who had offered rewards for the capture of any who flew the skull and crossbones, Benbow hoisted up a sack and dumped on the table his gruesome trophies which he blithely referred to as "salt provisions." On his return to England James II was convinced this name was of a stamp they needed in the navy, and gave him command of a ship. William III also employed him, this time in checking Dutch privateers and in bombarding the French ports, duties which he carried out with wholehearted enthusiasm and success.

Cause of Heartburn

Heartburn is not due to acid stomach, or any condition of the stomach contents, but to a muscular distention of the digestive tract itself, and can be controlled by medicine, according to two noted American physicians.

AVOID HOME-MADE LOOK ON HOME-MADE DRESSES

Ithaca, N. Y., Sept. 2.—The state college of home economics at Cornell University announces a plan which may prevent a home-made look on home-made garments. Through the home bureaus in most of the counties, and in the cities of Rochester, Syracuse and Buffalo, the college makes a collection of sewing equipment; and women who engage in an extension course for the prevention of waste in home sewing may borrow, and test any pieces of this equipment in which they are particularly interested. Lessons on how to select, care for, and use sewing equipment are available at the college.

Some Basic Points.
A stringy, stretchy tape-measure, may be the cause of many inaccuracies in sewing; a bed used as a cutting table often spells disaster. Many a dress which looks home-made can trace the source of its puckers to a failure on the part of the maker to press the seams at the right time. The care which sewing equipment receives affects the appearance of the finest product. If Johnny cuts wire with the shears they are ruined for cutting out a silk dress.

FARMERS INTERESTED IN WINTER STUDIES

Ithaca, N. Y., Sept. 2.—The interest which farmers have in the winter short courses at Cornell is shown, according to the New York State College of Agriculture, by the fact that special scholarships have been provided in a number of places for these courses.

The courses themselves are free to residents in New York, and the scholarship funds are used to defray the expenses of living in Ithaca, and for books and laboratory supplies.

One of these scholarships is

known as the Beatty agricultural scholarship and is maintained by a gift from the late Harrison L. Beatty of Bainbridge, N. Y. Under the terms of this award three persons receive approximately one hundred dollars each. All of them must be residents of Chenango county, and one of them must come from the town of Bainbridge. Descriptive circulars and announcement of the courses may be had from O. W. Smith, Secretary, New York State College of Agriculture, Ithaca, N. Y.

Fruit Prices in New York Market

The following quotations represent sales of original receipts on the New York city markets. The shippers should receive these prices less commission and other charges. Prices for fruits and vegetables represent sales up to 8 a. m. and other commodities up to 1 p. m. on Thursday:

Apples—Hudson Valley, per bushel basket or hamper, depending upon pack, quality, and color of fruit, U. S. No. 1 and grade A 3/4 inch and upwards: Alexander, \$1.35-2; Duchess, \$1.25-2; Gravenstein, \$1.25-2; McIntosh, \$2-2.5; Wealthy, \$1.25-2; Wolf River, \$1.50-2.25; various other kinds, \$1-1.75. In a few instances sales on some extra fancy fruit of some varieties exceeded quotations while inferior stock on most kinds sold below. Unclassified apples of various kinds ranged from 50c-\$1.25 as to size. Barreled apples, grade A 3/4 inch or U. S. No. 2 3/4 inch and upward, various varieties, \$3.50-5; unclassified offerings ranged from \$1.50-3.

Cran Apples—Hudson Valley, various early varieties, per bushel basket, large sized stock, \$75-1.25; small, \$2.50-3; per 12-quart basket large sized stock, 25-50c; small, 75c-\$1.25.

Elderberries—Hudson Valley, per 12-quart Climax baskets, 60-75c; Oswego County, per bushel basket, \$1.50.

Grapes—Hudson Valley, various early black varieties, per carrier, eight small baskets, good to fancy, \$1.50-1.75; fair to ordinary, \$1-1.25; twelve quart Climax baskets, 75-85c; few fancy, 90c-\$1.

Pears—Hudson Valley, per bushel basket, depending upon pack, size, and quality and condition: Bartlett's, best, \$1.75-2; few fancy large, \$2.25-2.50; ordinary, \$1.25-1.50; No. 2's, 75c-\$1.25; Clapp's Favorites, No. 1's, \$1.25-1.75; few fancy large, \$2-2.25; overripe, 50c-\$1; various other varieties, \$1-1.75. Per barrel: Clapp's Favorites, best, \$4.50-5; some extra fancy large stock slightly higher, while ordinary and overripe, \$2-3.50; No. 2's, \$1.50-3; Bartlett's, per barrel, best, \$4.50-6; No. 2's, \$2.50-3.

Plums—Hudson Valley, various early varieties, per 12-quart basket, 50-75c.

Prunes—Hudson Valley, various varieties, per 12-quart basket, 65-85c.

One European People

Was Napoleon's Dream

In all the six years of his captivity, he does not seem, even once, to have sung the praises of General Bonaparte. If he is summing up what he achieved, he says:

"My fame does not rest upon my 40 victorious battles, nor does it lie in the fact that I bent the monarchs to my will. Waterloo will wipe out the memory of so many victories; the last not makes one forget the first. What will never pass away is my book of laws, minutes of my council of state, my correspondence with my ministers. Through its simplicity my code of laws had more effect than any civil codes before it; the schools I have kept up, my methods of instruction, are creating a new generation; crime decreased during my rule, whereas in England crime has become more prevalent. . . . I wanted to found a European system, a European code of laws, a European court of appeal; there would have been but one people throughout Europe."—From Emil Ludwig's "Napoleon."

First Must Come Labor

Unless man plants and sows and reaps, seedtime and harvest avail him nothing.—Presbyterian Witness.

BLOOD POISONING PREVENTED BY PROMPT ACTION

Mother tells of swelling ointment that should be in every home

Columbus, Ohio, Feb. 15:—"My baby's arm was burned very badly and a neighbor advised me to apply Resinol Ointment. I did and the arm healed in no time and I had no trouble with it. Now I always use Resinol at once when the children are cut or scratched or burned or hurt in any way that might cause blood poisoning, as I find that it stops the hurting and heals so quickly. I really think it is the best on the market and I absolutely would not be without it in my home."—(Signed) Mrs. Frank Haberman, 611 Kelton Ave. Your druggist sells Resinol Ointment. He will be glad to supply you.

Shampoo With Calicura And Have Healthy Hair

Put the hair and scalp into Calicura Shampoo and the whole scalp has been treated. Let the Calicura remain on dry clean hair, over night if convenient. Shampoo with a second Calicura Shampoo. Wash with Calicura Shampoo on the hair. Then thoroughly in liquid water, shampoo with cold water if preferred. A light application of Calicura Ointment to the scalp between shampooings is beneficial.

Calicura Shampoo, 50c; Calicura Ointment, 25c. Calicura Company, New York City.

EXTINCTION OF EIDER DUCK BLOCKED BY LAW

Staging a Comeback Under Canadian Protection.

Washington.—Eider ducks, in the shadow of extinction, are doing a comeback, thanks to the protection of the Canadian government, according to the American Nature association. This is the duck that plucks down from her breast to keep her young warm.

Arthur Newton Pack, associate editor of Nature Magazine, informed Vincent Massey, Canadian minister, he had received a telegram from Howard H. Cleaves of the association at Wolfbay, Que., reporting on his investigation. The telegram from Cleaves, says:

"Eider ducks numerous along Canadian Labrador coast due to excellent protection by the government. I have seen more than 2,000 breeding birds in ten days' cruising. Hundreds of them in each of four sanctuaries cited to date. From one hilltop I saw 75. Nesting birds flew up on all sides. Icebergs Don't Bother Them."

Despite lingering snow banks and passing icebergs, some eiders have hatched. This fine bird is making wonderful recovery from shadow of extinction and with good weather there will be a large increase this year.

"This is certainly good news," Pack wrote to Minister Massey, "and on behalf of the thousands of members of the American Nature association I want to thank the Canadian government."

"Eider ducks on the great breeding grounds in Labrador were nearing extinction because of constant collection of eggs and killing of adult birds for their feathers and down. Before 1870 vessels were fitted out in New England for this purpose."

"When there were young in the nests the old birds were molting their flight quills and unable to fly. Men surrounded, drove them together and killed them with clubs, leaving the helpless young to perish. All this for feathers alone, for the birds had no food value."

Import Elderdown.

"For a number of years this went on until the birds were so reduced as to make feather hunting unprofitable. During this time and ever since egg-eaters, fishermen and settlers have destroyed both birds and eggs until the vast elder nurseries are a mere memory and we are importing our elderdown from the more humane people of the Old world."

"In Norway and Iceland, where these birds are protected, they become almost as tame as domesticated fowls, nesting places are made in the turf or among stones and some of them even nest on the sod roofs of houses."

Actor, Telepathist,

Reads Court's Mind

New York.—With absolutely nothing up his sleeve and no confederates in the house, Joseph Dunninger, a vaudeville mind reader, told Magistrate Macrery in Traffic court that the magistrate was going to sentence him to pay \$5 or spend two days in jail for parking on West Forty-seventh street during the theater hour.

He was right. The magistrate, not above conducting a scientific experiment to liven the tedium of the Traffic court, decided that he would give his public a demonstration as to whether a mind reader is or isn't.

"You are thinking, 'Don't park your car near theaters in the rush hour,'" the telepathic parker told the magistrate.

"What is the sentence I am about to give you?" he inquired, as if he were asking Dunninger what is the number of the gentleman's gold watch and is the little lady going to marry the young man she is keeping company with. Will you concentrate, please?"

"Five dollars or two days in jail," quoth the mind reader mournfully.

British Service Men

Make Cloth for Frocks

London.—Disabled former service men are engaged in decorating fine cloth for rest gowns, day frocks and evening gowns.

Princess Mary has bought three dress lengths of the decorated cloth known as "painted fabric."

One is of the soft blue tulle with lavender panels, having a hyacinth and lavender cross border painted up from the hem of the skirt. Another dress length is in rose pink with a medieval painted design. Princess Mary also bought an apricot-colored shawl with the same type of work.

Turkish Dogs Spend

Summer on Boats

Scutari, Turkey.—In Turkish villages along the Bosphorus a dog's life is that of a sailor.

When a village becomes "over-bounded" with street dogs the village fathers, loath to kill, as the Koran dictates kindness to animals, charter a ferry boat and ship a load of dog derelicts across the straits to some village on the opposite shore. The villagers on the other side ferry them back, adding a quota of their own. The original exporters retaliate, and thus a game of battleships and shell-fire rages yearly between Europe and Asia.

GAS BUGGIES—A Dream.

Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

THE ROBINS

"I have been meaning," said Daddy, "to tell you this story for a long time."

A Very Practical Old Bird.

"The robins, last spring, having left their warm winter home, had settled near a great, big, lovely park."

"Now, one of the robins happened to be a very practical old bird."

"He suggested that they shouldn't spend all their time singing, especially then, before the summer came."

"Later, he thought it was all right to play and sing all day."

"But it would be after now, he thought, to do a little work."

"The old robin's idea was that certain robins every morning should start out and dig up worms, for then they could get more than they wanted and could help supply the flocks and flocks of newcomers."

"Then other robins could go into the woods and get the new little berries that had just come up, and the rest of the robins would keep a shop in the biggest tree of the park."

"All the robins agreed that it would be an excellent scheme and so much better than idling away all their time."

"As soon as a new flock of birds would come to the park the other birds would tell them about the shop of the robins, and off they would fly to it."

"And such good things as the robins all had in their shop!"

"It kept them pretty busy hurrying around, to get enough provisions to last for all of their customers as well as themselves."

"But they thoroughly enjoyed being so busy and decided that there was nothing in the world like work."

"At night they would feel so much better than if they'd been idle all day, and then they felt as if they had really been doing some good, for it was a great, great help to all of the other birds."

"You can imagine how they wouldn't be able to find things so quickly, and they wouldn't know right away where the softest earth was so as to dig for the worms."

"Of course, some of the early bird families did arrive as early as the robins, but the robins were the thoughtful and unselfish ones who thought of the other birds."

"They didn't charge anything for the things they sold."

"The old robin said that birds should never charge each other anything, and, besides, they really felt that the work was doing them good and that then they'd enjoy the summer all the more."

"And the other birds certainly did appreciate what the robins were doing for them."

"The shop of the robins grew to be just like a daily party, for all the birds would fly there every day just about the same time, and after they had picked out the berries and the worms that struck their fancies, they'd stay around and chirp and chat with the robins and each other."

Teaching Her Mother
As Betty, aged six, returned from school one afternoon, her mother asked:

"And what did my little girl learn at school today?"

Betty looked surprised and exclaimed: "Oh, mother, do I have to educate you all over again?"—Children, The Magazine for Parents.

Hadn't Been Used
Agnes, aged five, was called in from play, to breakfast. When her mother told her to wash her hands and face, she replied, "All right, mamma, I'll wash my hands, but I've washed my face once and I haven't used it any since."—Children, The Magazine for Parents.

Birthday Mement Packages
Freddie's birthday was just a week away and ammy was planning a party for him and invited ten of his little friends.

"Um! Goody, goody!" said the boy joyfully, "that'll be ten packages to open."

How Could He?
"Well, Willie, and so you go to school now, do you?"

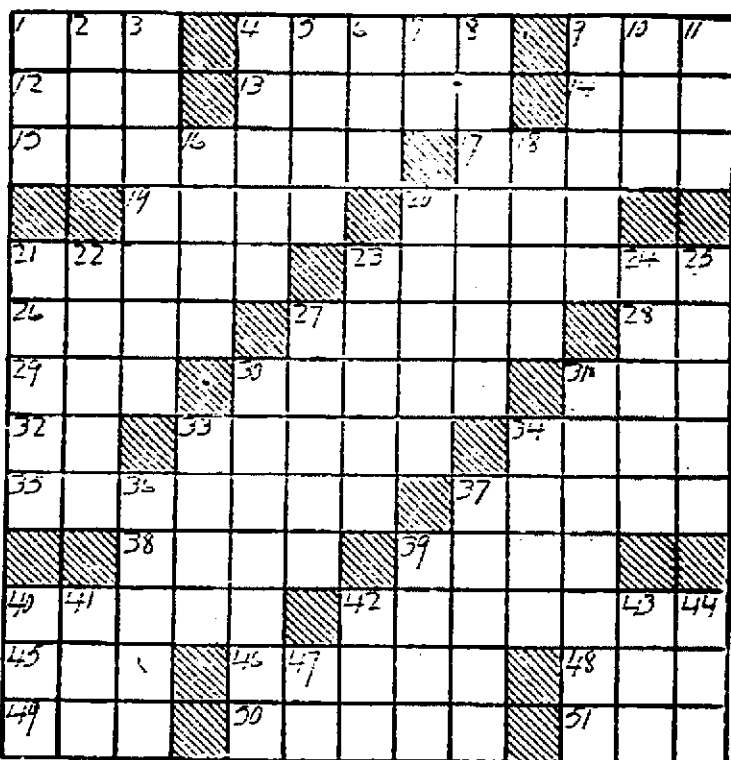

"Yes," said little Willie.

"And you love your teacher?"

Willie gave a loud laugh. "No," he said. "She's not a bit my style, you know."

The Daily Cross Word Puzzle

By RICHARD H. TINGLEY

We were once asked, somewhat peevishly, why we (and other puzzle makers) continually used such words as an, am, it, is, ate, etc., etc., saying that it showed a lack of imagination. Our answer was that we couldn't keep them out, much as we might like to.

Horizontal

- 1—Goddess of dawn
- 4—Violently dislikes
- 9—Shout
- 12—Rotten
- 13—Acting
- 14—Regret
- 15—Firmly held
- 17—Dropsy
- 19—Hits
- 20—Narrow opening
- 21—Wed
- 23—Peevish
- 26—Toward sheltered side
- 27—Herring-like fish
- 28—Number of players on a football team
- 29—Concealed
- 30—Downright
- 31—Corroded
- 32—Prefix; "from" (Fr.)
- 33—To incur
- 34—First murdered man of record
- 35—Inaugurate
- 37—Protect
- 38—Aperture
- 39—Brought into being
- 40—Multitude
- 42—Flaunted
- 45—One hundred and ten
- 46—Elude
- 48—Metal
- 49—Part of the letter "T"
- 50—Feasted
- 51—Untried

Vertical

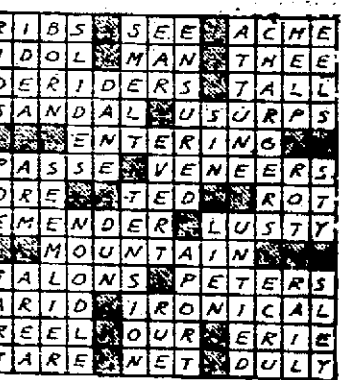

- 1—Unit of energy
- 2—Propeller

Elizabeth K. Voegelin of Pine Bush to Frederick T. Popp of Winfield, a parcel of land at Brimstone Hill, town of Shawangunk. Consideration, \$1.

Frank H. Sprague and wife of Ellenville to Dwight Divine & Sons, Inc., of Ellenville, a parcel of land in Ellenville. Consideration, \$1.

Dwight Divine & Sons, Inc., of Ellenville to Frank H. Sprague and wife of Ellenville, a parcel of land on Hickory street, Ellenville. Consideration, \$1.

LAKE KATRINE.
Lake Katrine, Sept. 2.—Mr. and Mrs. Pratt Boice and family are taking a motor trip to Maine.

Stanley Shaw of Kingston is visiting his sister, Mrs. Myron Boice. Mr. and Mrs. Willis Davis and

son, Richard, of Dover, N. J., returned home last week after visiting Mr. and Mrs. E. Crosby.

Mrs. Frank Drake and children of Brooklyn are guests of Mr. and Mrs. Graham Parish.

Owing to the holiday falling on the same date of the regular meeting of Lake Katrine Grange, the meeting will be held on Wednesday, September 7.

The antique auction sale of Aaron Cohen which started on Wednesday and was to be held for three days will be continued Saturday also, owing to the rain on Thursday. During the first two days, about \$10,000 worth of the \$20,000 collection of five thousand pieces was disposed of. There still remains a prized assortment of very valuable early American antiques. The auction is being conducted by Sisson's Sons of Poughkeepsie.—Advertisement.

THE PEOPLE OF THE STATE OF NEW YORK, by the Grace of God, Free and Independent.

WILLIAM FERRY, MARY G. CONNOR, NELLIE BRAUN, CHARLES V. SMITH, JOSEPHINE HALL, EDWARD BROWN, HENRY SHEPHERD, EDWARD SHEPHERD, and WILLIAM SMITH, Heirs at Law and Next of Kin of Edward Brown, Helen Sheehan, Edward Sheehan and William Smith, the said Edward Brown, Helen Sheehan, Edward Sheehan and William Smith have died subsequent to the death of Mary Jane Edelhausen, and if any such Unknown Heirs at Law or Next of Kin have died subsequent to the death of the said decedent, the Unknown Widows, Husbands, Heirs at Law, Next of Kin, Executors, Administrators, Devisees, Legatees, Assignees, Grantees, Persons claiming through or under any such person or persons.

YOU AND EACH OF YOU are hereby cited to show cause, at a Surrogate's Court to be held in and for the County of Ulster at the Surrogate's office in the City of Kingston, in said County, on the 12th day of September next, at ten o'clock in the forenoon of the day, why the last Will and Testament of Mary Jane Edelhausen, late of the City of Kingston, Ulster County, deceased, presented to said Surrogate's Court, should not be admitted to probate and recorded as a Will of real and personal estate, in pursuance of the statute, on the petition of Charles M. Edelhausen of the City of Kingston, Ulster County, New York, the Executor named therein.

IN TESTIMONY WHEREOF, we have caused the seal of said Surrogate's Court to be hereunto affixed. Witness my hand and the seal of said County, at the City of Kingston, the 9th day of August, in the year of our Lord one thousand nine hundred and twenty-seven.

C. K. LOUGHRAN,
Clerk of the Surrogate's Court.

NOTICE IS HEREBY GIVEN that the undersigned, Treasurer of the City of Kingston, County of Ulster and State of New York, will sell at public auction to the highest responsible bidder at the City Hall of the City of Kingston, New York, on the 14th day of September, 1927, at 2:30 P. M., bonds of the City of Kingston, which said bonds are to be of the denominations of \$1,000 each and to be numbered and mature as follows:

No. 1 to 5, inclusive, on March 15, 1928, No. 6 to 9, inclusive, on March 15, 1929.

Said bonds are registered bonds and will bear interest at the rate of four and one-half per centum (4½%) per annum, payable semi-annually on the 15th day of March and the 15th day of September in each and every year and are issued in pursuance of the General Municipal Law and the general City Law, the Charter of the City of Kingston, and the various Acts of the Common Council passed on the 15th day of October, 1927.

Said bonds are issued for the purpose of providing funds for the purchase of snow removal equipment.

Said bonds cannot be sold for less than par. The terms of sale are as follows:

Bonds must be paid for in cash at the time of the sale, and when the bonds will be ready for delivery, and will bear date the 15th day of September, 1927.

The City will not be liable to the purchaser, nor to any other person, for attorneys' fees in relation to the bonds or for investigating the validity thereof.

Dated, September 1, 1927.

WILLIAM C. DE WITT,
Treasurer of the City of Kingston.

Praises Work of Forty and Eight

Paris, Sept. 2 (AP).—The Forty and Eight, a group of the American Legion, has given a most interesting and to every major endeavor of the Legion. Howard P. Savage, national Legion commander, says in a report made today, prepared for submission to the annual convention of the former service men's organization in Paris September 15 to 24.

"The Forty and Eight has cooperated and furnished leadership," he said, "to the extent that there has been a noticeable trend toward making the big serious problems of the Legion the first concern, and relegating the remaining to second consideration."

"The main program of the national child welfare committee of the Legion would have fallen down completely except for the financial help secured in the \$2,000 a month fund furnished by the Forty and Eight. This fund made possible the carrying out of the child welfare policy of the Legion, and the financial assistance to mothers which enabled the latter to keep their children in their own homes."

LEGION INTERESTED IN LANDING FIELDS

Aviation landing fields are being established in many parts of the country by posts of the American Legion as part of the Legion's nation-wide effort to aid the development of flying. Howard P. Savage, national commander of the Legion, has taken a special interest in the work and has urged posts to undertake the activity as a means of service both to their communities and to the nation.

"Aviation is advancing with such rapidity that the time appears not far distant when it will be as necessary for a progressive city to have air connections as it now is for it to have railroad connections," Commander Savage said. "Posts will be doing these communities an important service if they will look ahead and see that a suitable location is set aside for a landing field."

"Commercial and mail air routes are being extended all over the United States. The cities which gain places on these routes are the ones which provide ground facilities for planes. Undoubtedly a great advantage will accrue to the cities which are able to secure places on these routes in the

Howard P. Savage.

same way that cities which secured places on the railroads gained an advantage over cities which did not.

"By establishing landing fields the Legion posts not only will be benefiting their communities, but they will be aiding in the advance of American aviation and making an important contribution to national defense. As more landing fields become available, more flying will be done and more pilots will be trained who could be called upon to man the air defenses in case of war."

Commander Savage inspected the airport established by the Clausen-Worden Post at Mason City, Iowa, when in that city recently. He viewed the field from the ground and from a plane piloted by a Legion flyer. The Mason City Legionnaires leased an 80-acre field on a paved road a short distance from the city and with volunteer workers from the post made it suitable for use by planes. They will have complete charge of the field for two years, after which the chamber of commerce will share in the work.

A typical Legion landing field project was carried out by Longview Post of Longview, Wash. The post obtained use of a tract of land 3,000 feet long and 800 feet wide, and with co-operation of the chamber of commerce and the merchants made the tract into an airport. Legionnaires went to the field in a body, cleared and leveled the field, and were served a picnic lunch by the Women's Auxiliary of the post.

Other posts which have recently completed airport projects include Lorentz post of Mankato, Minn.; Lowe-McFarlane post of Shreveport, La.; Francis E. Self post of Cheyenne, Wyo.; Hartman post of Columbus, Neb.; and Logan Wheeler post of Yakima, Wash.

Champ Checker Player Now Member of Legion

A membership campaign by the Commodore Denig Post of the American Legion of Sandusky, Ohio, recently brought in Newell W. Banks, champion match checker player and challenger for world honors, as a new member. Banks served overseas in the World War, but just happened never to have joined the Legion.

He had frequently appeared in matches at Cedar Point and is a close friend of one of the members of the Sandusky membership getters. He liked the Sandusky Legionnaires so well he was delighted to join, and a checker and chess match was arranged. His performance was phenomenal. While one man played chess with him, six others played checkers against him simultaneously. Banks was blindfolded, his friends calling the moves. He quickly routed his new friends. There has been a decided popularity for checkers and chess games at the Legion club since then.

SILO HAS GREAT VALUE FOR THIS YEAR'S CORN

Ithaca, N. Y., Sept. 2.—This fall the silo provides the best way to cope with the European corn borer and to make the most of what may be saved from the corn crop, says the New York state college of agriculture at Cornell University.

Unless all signs fail this will be one of New York's poorest corn years, the college points out. Planting was late because of unfavorable weather; a shortage of good seed was responsible for many a poor stand; corn fields were disked and seeded to buckwheat. A late fall may help some but cannot compensate for the cool summer which has reduced yields in every corn field.

Much corn grown for grain will have to be put in the silo if it is to be saved. Soft corn which will not keep in a crib is safe in a silo; and corn stalks, cut up fine and put through the fermentation of silage can not harbor live corn borers.

Corn properly stored in the silo retains more of its feeding value than by any other method. The college suggests that the farmer allow his corn to stand as long as possible, remembering that each day's growth means hundreds of pounds of feed; allow the ears to reach the glazed stage, if possible; if he must cut corn that is very immature, the bundles should lie on the ground a couple of days to evaporate some of the excess moisture. Extremely green silage is watery and poor in quality.

Reduce the spoilage in the silo by having the walls air tight; by cutting the pieces small; and by packing firmly to exclude even small air pockets where mold may start. In a year like this a good part of the feeding value is in the leaves of the corn plant, so none of the leaves should be lost.

Wyatt and His Cat

It is said that Sir Henry Wyatt, who was a privy councillor under King Henry VII of England, always had his picture painted with a cat beside him, because when he was confined by Richard III in a cold and dark tower, where he had neither food to eat nor fire to keep him warm, a cat brought him regularly every day a pigeon for his dinner and kept the warmth in his body by permitting Sir Henry to caress her. He was an ancestor of Sir Francis Wyatt, one of the early governors of the colony of Jamestown.

The VALUE Group

The finest
boys' clothing
retailing below \$15

It required every ounce of their buying strength and power, every economy of their quantity production, for America's greatest manufacturers of boys' clothing to produce the "VALUE Group"—the finest boys' clothing selling below \$15.

At last we have found real boys' clothes to sell below \$15. They have style, life, color and lustre; have stamina both in workmanship and trimmings; are cut full and not skimpy. They're called the "VALUE Group."

What the Aviators Are Doing Today

(By The Associated Press).
Lebourget, France—Leon Givon and Pierre Corbu hopped off for New York in the biplane Bluebird today and returned because of fog.

Caribou, Maine—The monoplane Sir John Carling, with Captain Terry Tully and Lieutenant James McCall was forced down last night by fog in the township of Washburn, near Caribou, on a flight from London, Ont., to London, England.

St. John's, Que.—The monoplane Royal Windsor, piloted by C. A. "Duke" Schiller and Phil Wood, was forced down last night in a flight from Windsor, Ont., to Windsor, England.

Ottawa—The monoplane St. Raphael, carrying Princess Lowenstein-Wertheim, Captain Leslie Hamilton and Colonel Frederick P. Minchin, is making a hop from Unavon, Enfield, to Ottawa.

Constantinople—William S. Brock and Edward F. Schlee left for Aleppo and Bagdad today on their round the world flight in the monoplane Pride of Detroit.

INFANTILE PARALYSIS LESS PREVALENT

In New York state as a whole the number of cases of poliomyelitis (infantile paralysis) has been lower this year than for any year since 1922. This is especially the case in New York city, exclusive of New York city, only 106 cases having been reported to the State Department of Health up to and including August 29, as compared with 177 cases for New York city, where the disease is somewhat more prevalent than for any year since 1923. It must be noted that poliomyelitis is nearly always much more common during August than during any other month. Outside of New York city, the increase during August has been largely in Westchester county, which adjoins the city. The cases reported, January 1 to August 31, for the five previous years were as follows:

New York State, exclusive of New York City	New York City
1922..... 105	67
1923..... 124	311
1924..... 428	80
1925..... 229	160
1926..... 249	62

Jewels in Profusion Decked Desert Queen

It is not generally known that the Sahara desert has encroached hundreds of miles eastward during the centuries since the great days of Egyptian civilization, and has in consequence buried in sand many forgotten cities and centers of population. One often thinks of the treasure lying on the floor of the ocean, but the treasure buried under desert sands must also be incalculable.

A sensational discovery was made recently, not on the Egyptian side, where the sand almost succeeded in overwhelming the mighty Sphinx, but on the western side of the desert. The body of some ancient queen of the Sahara was found beneath the sand. On her arms were found eighteen bracelets, nine of gold and nine of silver; five necklaces of jewels were around her neck, and on her head was a diadem of gold studded with jewels. There was much exquisitely carved furniture in the tomb, and near by were piles of jewels—emeralds, rubies, opals, and so on. On the opposite side was found a superb statue of a woman carved in stone. The date of this tomb is placed at least a thousand years before the Christian era.

Prayed for a Rest

The story goes that several college presidents were discussing what they would do after they retired. What would they be fit for was the question. "Well," said one of them, "I don't know that I'd be fit for anything, but I know what I'd like to do. I'd like to be superintendent of an orphan asylum so I'd never get any letters from parents."

"I've a much better ambition," exclaimed another. "I want to be warden of a penitentiary. The alumni never come back to visit."—Harper's Magazine.

High School Opens Next Week

The Kingston High School will open next week.

On Tuesday, September 6, pupils who are entering high school for the first time will register at 8:30 day-light saving time, both residents and non-residents.

On Wednesday, September 7, all students will register who have formerly been in high school.

WIFE OF FAMOUS JOCKEY IS DEAD

Saratoga Springs, N. Y., Sept. 2 (P).—Marion Casey, 25, wife of Earl Sande, the well known jockey, died at the Sande cottage here this morning after an illness of two weeks. She was a niece of Mrs. Samuel Hildreth, wife of the Rancocas stable trainer, and was born in Cambridge, Mass., where the body will be taken home today for funeral and burial. She left no children.

Heads in the Clouds

There are thousands of young chaps who are looking so hard at the future that they forget to make a dent on the present.—American Magazine.

Kirk Home Has A Heavy Guard

Chicago, Sept. 2 (P).—Walter R. Kirk, millionaire soap manufacturer, has surrounded his Lake Forest home with armed guards, police said today, after receipt of a threat of death before Saturday night unless \$10,000 is paid to the extortionists. The massive demand the money was signed "A Sympathizer of Sacco and Vanzetti."

Mr. Kirk turned the letter over to Post Office inspectors. "I suppose the letter came from a crazy man," he was quoted by the Herald and Examiner as saying, "but I am taking reasonable precautions. I have established a day and night guard at my residence and have employed a personal bodyguard. Incidentally, I don't mind admitting that I am carrying a pistol."

Origin of Cricket

Cricket, like many of the other popular games in this country, originally hailed from the East. It came to this country from France in the Middle Ages, and the name itself is derived from the French word, "cricquet," which means on the continent the stick used in the game of bowls.—London Mail.

Corn Borer Campaign Results

Field Survey in Five States to Be Completed September 30 and Results Announced—New York State Included in Work of Agents.

The field survey begun August 15 to determine the corn borer infestation of the 1927 corn crop in the area covered by the \$10,000,000 control campaign in Ohio, Michigan, Indiana, New York and Pennsylvania will be completed about September 30, says the United States Department of Agriculture.

Approximately 550 townships are being surveyed, involving five cornfields per township. Within each field a census is taken by corn borer experts experienced in locating the destructive borer.

When the campaign was authorized by Congress the department considered eradication of the corn borer impossible. The spring clean-up campaign conducted in cooperation with the state departments of agriculture and the agricultural colleges in the infested area was therefore an intensive effort to slow down the

natural spread of the borer into the corn belt and to delay count-down in territory already infested. The results of the survey will show to what extent this campaign was successful.

The survey was not started until the borers had begun to reach maturity and the maximum damage to the corn crop could be determined accurately. Until this survey is completed, it will not be possible to make any conclusive statements regarding the comparative corn borer infestation in 1926 and 1927. Any statements or reports, painting dis-

coloration before the final figures from this survey are available, must be based on necessarily open party guesses, or on a small portion of the total area known to be infested by the pest.

Last Year's Survey

Last year's survey showed an alarmingly increase in territory with the heaviest infested regions on the shores of the Great Lakes. This infestation reached 248 borers per bushel in China township, Michigan, and 271 borers per bushel in Jermination town-

ship, Ottawa county, Ohio, while a number of Lake townships showed an infestation of 30 borers or more per bushel.

The spread in territory so alarming last year was into southeastern Michigan, northeastern Indiana and Ohio, Ohio advancing towards the base of the Great Lakes. The spread in territory on the other side of the infested area last year was a warning of the corn borer campaign, which continued until the final results of the field inspectors are in.

Flashes of Life Sketched in Brief

(By The Associated Press)

New York.—Yes, the metropolis is wet. The dampest 12 hours the city has experienced this year are described in headlines as "September morn swims in" and "After August the deluge."

Montreal.—The Prince of Wales and Prince George probably will agree with most golfers that plus fours—at least when wet—are uncomfortable, weighty things. Out somewhere on the course at Dixie they got soaked so much that dressing for dinner was subjected to unwanted delay.

Ocean Grove, N. J.—Billy Sunday says he has refused \$2,000,000 to go into the movies and \$10,000 a month for vaudeville.

New York.—It looks as if a rabbit tan could prevent a disliked ball tosser from making a triple or homer. A new National League rule says: "In all cases where a spectator goes on the playing field, picks up a fair hit ball and retains possession of it two bases will be allowed."

Teterboro, N. J.—Sky pilots are to be busy tomorrow in Clarence Chamberlin's home town. Three couples already have been selected to be married up in the air at a fête and more are applying. Each couple may be married by a clergyman of its choice.

New York.—W. F. Berggren, about to leave for South America, thought he might need a new straw hat. He made a hurried taxi trip for it. The taxi stalled and a truck hurried him to the dock. The steamer had left. He caught it with a tug. Then he realized the hat was in the taxi. It's winter now anyhow where he's going.

Cohen Sale Continues Saturday.
Owing to the rain on Thursday the auction sale of Aaron Cohen being conducted at 48 Main street will be continued for an additional day. The sale was originally planned for Wednesday, Thursday and Friday but will be continued Saturday. During the first two days about half of the collection of five thousand antiques was disposed of.

Secures Position.
Miss Thelma Clearwater, a graduate of Spencer's Business School, has secured a temporary position as stenographer and typist with the Ulster County Home Bureau, 272 Wall street, this city.

Conference of Probation Officers.
The Twentieth Annual State Conference of Probation Officers will be held on Monday and Tuesday, November 14 and 15, 1927, at Troy, N. Y., with headquarters at the Hendrick Hudson Hotel.

Visiting.
It's always a gamble to take children calling, as many a mother has found out to her sorrow. Sometimes they behave according to Royce, and then sometimes they do or say very strange things. The other afternoon mother and 5-year-old Dorothy went calling and were served tea. This didn't bother mother, because she had frequently had her little daughter with her when serving tea at home, although, of course, the child's report was limited to the table. On this occasion the hostess had sandwiches instead of cake. When she asked Dorothy if she would have some, imagine her surprise, and mother's chagrin at the youngster's reply: "I like cakes better, but they'll do."—Philadelphia Record.

Printed Frock Liked by Milady

Popular in Large or Small Pattern, Bright or Subdued in Color.

The printed frock is the fashion of the hour. Small or large patterned, bright or subdued in color, with or without sleeves, in cotton or chiffon, they are in vogue for every hour of the day. Whatever one's preference in fabric or color one may choose from fashion's array at one's disposal and be smartly gowned—if one's costume is fashioned of print.

Interesting, indeed, is the wide divergence of patterns available in smart prints to suit both the conservative and extremist in tastes. Where formerly only floral decorations were considered good taste in printed fabrics, today cubists, impressionists and all the ultramodern in designs and colors have given of their art to make the most striking patterns and color effects for dressmaking uses.

The daytime printed frock follows the smart, simple sport mode in its lines and is fashioned of crepes, cottons and linen fabrics, while the afternoon and steepleless dance frock developed of the most delicate printed chiffons is tiered, paneled and has unusual plait treatments to lend it variety. These frocks with flowing sleeves and long plaited panels or tiers worn with large picture hats are the favorite costumes for afternoon wear whether one has tea in town or at the garden party.

The printed chiffon ensemble cut on extremely simple lines, depending for its chic on the smartness of its material and novel plaiting arrangements, vies with the new sports cotton print ensemble. The latter are seen either entirely of the printed material or with the accompanying frock in a solid color.

The cubists' invasion in the field of fashion is depicted in a futuristic frock worn by Gertrude Olmsted, featured motion picture actress in "The Callahans and the Murphys." Against a background of beige the weirdest of designs in brown, tan and black are

Futuristic Frock Worn by Prominent "Movie" Actress.

printed. Because of its bizarre material, the cut of the gown is simple. It has a round neckline, long sleeves trimmed with buttons, a grille of self-material at the natural waistline and a cascade down the front. A simple felt hat is worn with it.

Embroidery on Sleeves Fashionable This Year

In all the centuries, fashion has never gotten entirely away from embroidery and never will. It all depends, however, where embroidery is placed whether it is fashion or not. Just now it should be decked sleeves. The latter are growing larger, gaining in circumference as the wrist is approached. Many of these, as well as the bishop type, are heavily crusted with embroidery. Bead trimmings are occasionally interspersed with the needlework.

Diagonal Treatment of Trimmings Is Feature

A diagonal treatment of trimmings is a distinctive feature of the newer frocks. The dressmakers are finding that they can stress the long, slender lines by placing tuckings, plaits, stichings and appliques diagonally. Bands of dull black broadcloth trim gowns of satin, while often gleaming satin is used diagonally to decorate the dull surfaced materials.

Flower for Printed Frock

If you are wondering whether to wear a flower with your printed dress—try a soft one of the color which you wish to accentuate in the print and you will find it produces exactly the right effect. Never choose, however, a boutonniere containing a variety of flowers of different colors.

Midget Elephants

Remains of piny elephants, no larger than sheep, have been found in the islands of Malta and Cyprus.

Crime of Crime

Crime costs \$15,000,000,000 a year, says the National Security company. A crime—From Forbes Magazine.

ELEANOR GUNN ON FASHIONS

Wool Georgette Enters With Other Novelty Materials, Jumpers Remain, But on Longer Lines, and Coats Become Slightly Shorter.

New York.—One of the successes of the past season was crepe, a fine wool crepe, so it is not to be wondered at that other attempts to combine the utility and charm of both silk and wool have been attempted. The result in one instance is called wool georgette, a name sufficiently descriptive, one might infer. Challis, repps, and other light-weight woollens, including broadcloth and jersey, continue to be recognized by women as fabrics worthy of their choice.

Several of the smartest early autumn suits are in two materials: velvet and crepe for one choice; or metal and wool, for another. The jumper, which still scores, has lengthened its lines, and in several instances has assumed a good deal of the dash of a Russian blouse. The increased length of the jumper, and in some instances the decreased length of the coat, make both coat and jumper about of a length, often one that hovers about the knees.

A Sweater of Cream-Colored Brushed Angora Has Stripes in Dull Orange and Gray, Repeated in the Silk Knit Skirt. The Turn-up Cuff at the Sweater's Edge is Interesting.

One feels that flares are more tolerated than approved for coats. That several coat makers do indulge in flared lines must be admitted, but the great majority are content with straight lines for the outer garment, focusing more attention on the cut and detail of the shoulder and neck-line than on the nether part of the garment.

Applied yokes, inserts, bands, and stitching all make for interest in fall coats, while, of course, furs may or may not be used. Novelty materials have first choice for sports or top coats, while plain, soft-surfaced woollens lead for dressier effects, sharing honors with velvets.

Fur is often applied as a binding for the collar and front edge, as well as for the cuffs. One feels even less inclination for enormous fur collars than was indicated last season, when collars began to dwindle in size.

Copyright, 1927, by Metropolitan Newspaper Service, New York.

OUR DAILY PATTERN.

A Simple Stylish Dress For the Little Miss.

5816.—This style is good in light weight woolen, challis, tab silk or linen.

The pattern is cut in 4 sizes: 4, 6, 8 and 10 years. An 8 year size will require 1 1/2 yard of 40 inch material together with 1/4 yard of contrasting material 16 inches wide for collar facing.

A pattern of this illustration mailed to any address on receipt of 15c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notes.

THE KITCHEN CABINET

(By 1237, Woman Magazine Editor)
The dawn is dawning into day—there is a race to run before the first light of dawn. Where in the goal we mean to reach: what conquest would we make? What is the meaning of the course our earnest feet shall take?

SEASONABLE FOODS

A salad which is especially rich in vitamins A, B, C, and one that should be served frequently to children is:

Orange Salad.—Peel two oranges, removing all the white pith and seeds. Arrange the sections on tender, crisp lettuce on individual salad plates. At the time of serving dress with the following ingredients well blended:

Two tablespoonsful of orange juice, one tablespoonful of olive oil, one teaspoonful of lemon juice and one-fourth teaspoonful of salt.

Banana Cream.—Beat the whites of two eggs slightly, add one-fourth cupful of powdered sugar and gradually three-fourths of a cupful of hot cream. Cook over hot water, stirring constantly until the mixture thickens, then add two tablespoonsful of gelatin soaked in one-half cupful of cold water, add two-thirds of a cupful of sugar and mashed pulp of four bananas, with one tablespoonful of lemon juice; set in ice water and stir until the mixture begins to thicken, then fold in the whip from three and one-half cupfuls of cream. Turn into a mold and chill.

Gold Cake.—Take one cupful each of cake flour and sugar, six egg whites and five yolks, one and one-half tablespoonsful of lemon juice, one-fourth teaspoonful of salt. Sift the flour after measuring three times; it is always to be sifted before measuring. Beat the egg whites until firm but not dry. Beat the egg yolks until thick, add the sugar a little at a time to the yolks, add the lemon juice and salt, fold in the whites, using a spatula. Lastly, fold in the flour a little at a time. Pour into a tube cake pan and bake in a slow oven for one hour and three-quarters. Let the heat come up to brown in the last half hour of baking.

Simple desserts like custards, prune whip, rice cream, when not enriched with nuts, fresh fruits, dried, stewed fruits and simple bread puddings are all good for the children.

Nellie Maxwell

Eleanor Gunn Says

New York.—Recent reports from Paris openings dwell on the applause accorded panels, as well as draperies that elongate one or both sides of skirts that are otherwise short.

Jumpers for fall are longer, and still play an important role when coupled with suits or with coat and dress ensembles.

Satin, especially black satin, is emphasized for fall.

The draped silhouette appears to be considered above others for autumn, and waist-lines appear to be, and sometimes actually are, raised.

The combination of gold and wool in fabrics has been used before, but not more charmingly than this season.

Petunia is listed among the more interesting colors.

Velvet and chiffon used together are among the interests for autumn.

Printed velvets, also lustrous ones, are cited for fall, and have the sponsorship of Lelong and others.

A strong modernistic influence is apparent in the fall fashions launched at the Paris openings, period fashions being almost forgotten for the time in an effort to express this day and age.

Georgette continues to be a most important fabric consideration for afternoon and evening dresses. (Copyright, 1927, Metropolitan Newspaper Service, New York).

KERHONKSON.

Kerhonkson, Sept. 2.—Mr. Cooley will preach a sermon in the Methodist Church next Sunday morning.

Pain Yields to New Treatment

Amazing Results

Whenever you let yourself suffer from pain, you do your body real injury. Stopping the pain promptly gives relief to tired, tortured nerves and helps the whole system toward recovery. A safe, simple and inexpensive method for prompt relief has now been perfected. Just ask your druggist for R-I-A-N Tablets, follow directions faithfully—and you will agree with the thousands of sufferers who praise this gift of science, R-I-A-N.

BEAUTY DENIES PRINCE'S LOVE

Greta Nissen, blonde film star, emphatically denies that any romance existed between herself and Prince Swan Singh, handsome Indian potentate. Greta declares the Prince merely sought to induce her to play the lead in a picture which he proposed to film in India.

(International Illustrated News)

WEST HURLEY.

West Hurley, Sept. 2.—Mrs. Louise Newberry of Prattville is spending a few days with Mrs. Carrie Van Steenburgh.

Miss Helen Kennedy of 552 First street, Brooklyn, who is spending the summer at Elka Park, has donated the candelabra for the Shrine of the Little Flower in St. John's Church.

Mrs. William Brand, who has been spending the summer in the Fisher bungalow, has returned to her home in the city on account of the health of her son, William.

Clayton Vredenburg is improving his residence by changing the location of it and also making other improvements which add to its appearance.

School opens for this district Tuesday, September 6. Fred Meyers of Hurley as teacher.

The annual Sunday school picnic of the M. E. Church was held last Wednesday at Forsyth Park and was enjoyed by all present.

Mr. and Mrs. Bert Miller of Kingston have rented the home of Norman Cole.

Francis McAuliffe of New York has

been spending a few days with his mother, Mrs. K. McAuliffe.

Mr. and Mrs. Eugene Ostrander and grandchildren, Theron and Marion DuBois, and Mr. and Mrs. Clarence Ostrander and children, Junior and Robert, spent Sunday with Mr. and Mrs. Harold Ostrander in Saugerties.

The Misses Twomeys, who have spent the summer in John Weninger's bungalow, have returned to their home in New York.

Mrs. Charles Hoyt of Phoenixia spent the week end in this place.

Mrs. Shultz, Mrs. Parish, Mrs. Otto of Kingston and Miss Dorothy Barker of New Jersey called on Mr. and Mrs. Arthur Joy Tuesday afternoon.

Mrs. Martin Haggerty and daughter, Marcella, of Kingston visited at the home of Mr. and Mrs. L. E. Joyce Sunday of last week.

Nature's Still

"The moon retains only the water vapor which freezes. The rest is condensed into moisture, some of it on the earth," says a scientist. Moonshine, eh?—American Magazine.

DRY BROOK.

Dry Brook, Sept. 2.—Mr. and Mrs. M. Foytik are the proud parents of a baby daughter, who will answer to name of Mary Jean. Congratulations are extended to both.

Mrs. George Stewart, who has

been visiting friends and relatives in eastern part of this state and northern part of New Jersey, returned home Sunday.

Arch Fairbairn is driving a new Chevrolet delivery car which he recently purchased of Sanford Chev-

rolet Company of Margareville, for use on his mail route.

George Stewart, Town Superintendent, made a business trip to

Beaverkill Monday.

Louie Scalza and party of friends, who have been spending their vaca-

tion at his summer home, The Shack, returned to Jersey City last week.

Hauling and shipping cauliflower is the order of the day at present.

The M. E. church fair, which was held August 17, was a decided suc-

cess and netted around \$250 profits. A quilt piece by Miss Kathryn Stewart, now Mrs. Earle Gossett, and containing over 2,000 pieces brought \$75.

Gus Stewart has added a pair of minks to his fox ranch recently.

Colonials at Stamford Today

Rain Interfered With Game at Poughkeepsie Thursday—Busy Schedule Ahead for Local Club.

The Colonials are scheduled to meet Cooperstown at Stamford today for the fourth time this season. The locals have three wins to their credit over the Otsego county nine and plan to register a quartet of victories. The battery for the contest has not been announced.

The Colonials have not had very favorable weather conditions of late and Thursday were unable to meet Chief Mueller's nine at Poughkeepsie owing to heavy downpours. The Bridge City aggregation is anxious to defeat the Colonials, a feat they have been unable to accomplish although the nines have met twice. In order to give them another opportunity it is thought that a game may be arranged for Saturday at Riverview Park.

Sunday the locals will again stack up against the Bushwicks at Dexter Park, Brooklyn. It is hoped that the weather man will favor the occasion as wet weather hampered the Colonial-Bushwick game several weeks ago after the Cuffton-Jobins team had gained a 4-2 lead. It is probable that Ted Karis, Ferdie Allen and Eddie Phelan, the latter a Poughkeepsie player, will be in the lineup at Dexter Park.

Labor Day the Colonials will perform in a dual bill at the Fair Grounds. Their opponents will be the Ellenville Orioles and Chief Mueller's team of Poughkeepsie. On Tuesday following the locals will take on the Boston Braves at Glens Falls as representatives of that community. Wednesday, September 7, the Brooklyn Royals will oppose the Colonials at Windham in a feature attraction at a firemen's convention.

DEMPSEY TRAINS WITH THE KIDDIES

Jack Dempsey always has a group of youngsters around him, and when he started training at Lincoln Fields, Ill., he played to his usual gallery of juveniles. Looks as if the youngsters like Jack a whole lot, too, doesn't it?

(International Illustrated News)

All-Stars Play Knights Sunday

Sunday afternoon at the Fair Grounds the All-Stars and K. of C. clubs will battle in a double-header. These games are what the public has been waiting for over a month back. There has always been a great deal of rivalry between the two clubs and as a result a large crowd is expected to witness the battles. The first game will start at 2 o'clock. The usual admission fee will be charged. Season tickets will be accepted.

Both managers feel confident of a win. The winner is to play the Colonials for the championship of the city. The All-Stars have won eleven and lost four so far this season. Several of the clubs they have defeated are Montgomery, Millbrook, Beckwiths of Poughkeepsie, and Middletown.

Dewey Van Buren, Hank Cragan and Freddie Stoudt will throw them over for the All-Stars with Al Flanagan receiving. The rest of the lineup will be composed of Dutch Glaser, Kid Moore, Walt Black, Pres Knight, Jim Merritt, and Marty Carr. There are also two other players who will be announced later.

CLERMONT'S TO PLAY BLUE SOX FOR CHAMPIONSHIP

The Clermonts and the Blue Sox are scheduled to cross bats at Hasbrouck Park this evening at 6:30. Both aggregations use the diamond as "home grounds" and the contest will be for the supremacy of the park. Either Jack Dunn or Tom Lewis will take the mound for the Clermonts with J. Houghtaling behind the plate. "Lefty" Williams or C. Bush will do the hurling for the Blue Sox with a choice of Schultz or Gill for catcher.

Sunday the Clermonts will play at Woodstock and Labor Day are scheduled to stack up against the Golden Rods. The latter contest is expected to be a hard battle as the Golden Rods have been performing against such teams as Kaseys, Ronouts A. C.'s Pan-Ams and other teams of no mean ability in admirable style. The Clermonts have considerable to boast of as so far this season they have topped 29 out of 37 games and are at present victors of seven consecutive contests.

ROUNDOUTS TO MEET POST OFFICE-CITY TONIGHT

The Post Office-City and the Roundout A. C. will clash at Block Park this evening at 6:15 and a fast game is expected. The former aggregation holds two wins over the Roundouts while the Block Park nine has taken one in the five game series. Cragan and Newkirk are expected to do the battery work for the Post Office-City while Peters and Dulin will perform in the capacity for the Roundouts.

Sunday the Roundout A. C. will meet Rhinecliff at Block Park. The game is scheduled for 3 p. m. Doyle or Seltz will hurl for the locals and Wheeler and Dederick will form the battery of the visitors.

STAR INJURED

Another setback was handed St. Louis Cards when their heavy-hitting outfielder, Ray Blades, had to retire with leg injury. He'll be out indefinitely. (International Illustrated News)

Our "Sacred Soil"
Real estate is the largest single item in the national wealth of the United States. It is estimated 54 per cent (about \$30 billion dollars) is represented by this item.—Liberty.

Sporting Events at The Dutchess Fair

Sport enthusiasts will find plenty of entertainment at the Dutchess county fair on Saturday, the closing day. All racing events which were scheduled for today will take place on Saturday. This includes a special race for Dutchess county horses, in the 2:30 trot and pace class, for a purse of \$400. A 2:24 pace is also on Saturday's card. Some exceptionally fast horses have been entered in both classes.

In the afternoon there will also be two games of baseball. The first contest will be between the Kingston All-Stars and the Beckwiths of Poughkeepsie. The second game will be between the New York State Troopers and the Poughkeepsie police club.

Finals in the horse shoe pitching contest will be held on Saturday to pick the champion of the Hudson valley. Preliminary contests were being held today.

There are plenty of attractions on the midway to interest those who attend the fair and who want to have something to do between the sporting events. A large number of Kingstonians are expected to attend the fair both today and Saturday, as many were kept at home on Thursday by the rainy weather.

WINS BIG SWIM

Ernst Vierkoetter, German swimmer, who swam Channel, captures \$30,000 prize in Canadian National 21-mile swim. (International Illustrated News)

IN HOSPITAL

Ad Wolgast, 39, former lightweight champion of world, is under observation in Los Angeles hospital. Famous fighter was committed at the request of friends.

Old Criticism of Dance

The dance craze was the object of almost as much criticism a century ago as it is today. This was shown by a book, yellowed with age, which was found recently in the walls of an old mansion demolished in Medford, Mass. Under the heading, "Dancing," the author, in 1831, wrote: "Nothing shows the national character, or thoughtlessness and gaiety, more plainly than a strong and general propensity for dancing. A passion for this amusement affects persons in every grade of life. It might be supposed that those only would be disposed to engage in it whose spirits are continually elastic and buoyant, under the cheering smiles of prosperity and ease. But this is not the fact. The thoughtless and gay will often do it in order to suppress those morings of conscience which would lead them to a life of religion."

CORNS

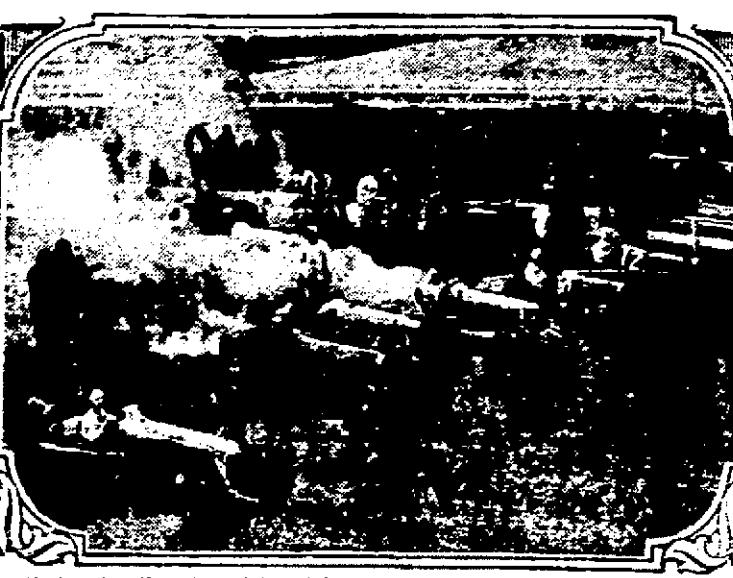

Stops pain in one minute
You will forget you ever had a corn one minute after you apply Dr. Scholl's Zino-pads—that's how quick they end all pain. When the corn is gone it never comes back. If new ones irritate the spot, a Zino-pad fixes it overnight!

Dr. Scholl's Zino-pads are this, medicated, antiseptic, protective, healing, safe, and quick, lasting results guaranteed. Get a box at your druggist or shoe dealer—or, Dr. Scholl's.

Put one on—the pain is gone!

SPEED KINGS AT STATE FAIR

Under the direction of Ira Vail, veteran racer, this year's Auto Races at the State Fair at Syracuse the last day of the week of August 29 to September 3, will see the leading track drivers out to win the famous 100 mile race. Other races will include the National Motorcycle championships.

Chicago Will Greet Tunney

Chicago, Sept. 2 (AP).—The mayor, the city council, the American Legion and civic leaders were banded together today in an official welcoming committee for Gene Tunney, the world's heavyweight champion.

There was on the program a parade from railroad station to City Hall for the key to the city ceremonies to give Chicagoans a chance to glimpse the man who is to defend his title against Jack Dempsey at Soldier Field September 22. Then Tunney was to go to his training quarters at Cedar Crest Country Club. Fans are paying \$1.10 each to watch Dempsey train, but Tunney has said the public can watch him free. He will find his camp at Cedar Crest similar to his camp in Speculator, N. Y., except for isolation and elevation.

Cubs Toppled From First Place

Pirates Defeat Chicago Club Thursday and Move Into First Place—Four Clubs Bunched Near the Top.

(By The Associated Press.)
Pennantville used to look like "just around the corner" for Chicago's Cublets, but today's shuffle finds some one hanging out plenty of detour signs on the National League home stretch.

The Pirates wrested first place from the Bruins after a stubborn battle in Pittsburgh yesterday. Chicago going down by 4 to 3 as the Corsairs assumed the supremacy on an eyelash margin of a single percentage point. Lee Meadows put the skids under the Cubs by keeping nine hits well distributed and retiring his opponents in the ninth after a run was in, two on the bases and one out. Hal Carlson, one of the leading members of the Chicago pitching staff, was the loser.

Joe Harris was the big noise of the Pirates' attack with a home run and a double. His sacrifice fly sent Grant-ham across with the deciding run in the eighth.

The Cubs may not be through by any means but the dopests picking favorites point out that Chicago is on the toboggan as is evidenced in the waning away of the one time big advantage. On the hand, Chicago is considered as having a shade by finishing up on the home diamond, but on that basis, the Pirates and Cardinals are benefited as well.

An open date kept the Cardinals and Giants from the heart breaking struggle yesterday while rain washed out Brooklyn's fracas at Boston. The Phils and Reds were without schedule.

As for the Giants, they are but two games from the crest and have back of them a winning streak of seven straight accumulated off western opposition.

Here's how the scramble stands:

Team	Won	Lost	Ave.
Pirates	72	50	.590
Cubs	73	51	.589
Cardinals	69	50	.580
Giants	70	52	.574

The Tigers shook off the jinx tagging on their heels through eight straight games and subdued the Browns by 8 to 4 by staging a four-run rally in the tenth. Rice, Williams and McManus hit homers.

Cleveland toppled the White Sox, 8 to 5, collecting 14 safeties off the combined efforts of Thomas and Jacobs. Summa banged a homer with one on base for the Indians.

Rain caused postponement of other American League games.

ARCHER'S SADDLE HORSE WINS AT RHINEBECK

At the annual horse show held in connection with the Dutchess County Fair at Rhinebeck, Attraction, the saddle horse owned by Kenneth E. Archer of this city, on Wednesday won in the competition up to 15 hands.

Firegold, Homer Gray's excellent pony, won the championship for ponies and the cup presented by Kenneth E. Archer. The pony competed against For Trot, owned by Mrs. Redmond. The two were winners in three previous contests.

New York Motorist Unable to Stop
Car on Slippery Roadway—Warrant
Issued After He Gave Name
and Address to Owner of Damaged
Car.

Thursday afternoon while Lester Katz of 147 West 79th street, New York city, was driving north in his Paize car, he collided with a car driven by Frank Craft at Highland. According to Katz's story he was following the Craft car when the brakes were suddenly put on while going on a down grade, he was unable to stop his large car on account of the wet, slippery condition of the road and he crashed into the Craft car, doing slight damage. He told the sheriff he stopped and gave his name and address to the owner of the damaged car and told him to write to him and he would see that his insurance company settled. Katz did not get Craft's name at the time.

After Katz had left his name and address he proceeded toward Kingston. In the mean time Craft swore out a warrant for the arrest of Katz and the local police were notified and Katz was apprehended by the local police and brought to the sheriff's office. After the situation had been explained to Justice of the Peace S. G. Carpenter at Highland before whom the warrant had been sworn out, Katz was allowed to go on depositing with the sheriff \$10 bail for his appearance in Highland on Tuesday.

According to Katz he is insured and his company will pay for the damage which will not exceed \$5. Katz told the authorities that he had not settled for the damage as he would not be reimbursed by his insurance company if he paid the loss while the damage would be attended to if the owner of the damaged car put in a claim.

People Now Getting

Amusement to Order

In the past when people needed recreation they were compelled to a great extent to provide it for themselves. If you needed music you had to sing or play an instrument. If you wanted a pictorial record of some person or scene you had to draw and paint. If you lived in a village or out-of-the-way town and wanted drama you had to act yourself.

Today you need do none of these things. You turn on the gramophone or the radio when you need music; you click your camera when you want a picture; you go to the village movies when you want drama. Recreation is provided ready made by enormous joint stock companies.

The play instinct, which found active expression in the past, is now passive. In the days before machinery men and women who wanted to amuse themselves were compelled, in their humble way, to be artists. Now they sit still and permit professionals to entertain them by the aid of machinery. It is difficult to believe that general artistic culture can flourish in this atmosphere of passivity.—Aldous Huxley in Harper's Magazine.

Cheetah in India Has

Its Place in Family

In the East the native professional animal takers sometimes catch leopards in nooses. The leopard, like the tiger and the panther, has the feline's habit of sharpening its claws on tree trunks. The natives aver that the big cats will preferably use for this purpose a tree that bears claw marks previously made. Accordingly, the animal hunters select such a tree and round and about the trunk set their strong gut snares.

A cheetah secured for hunting must be caught when full grown and accomplished in his knack of putting down game. Otherwise, no matter to what extent it were trained, it would never acquire the quickness and perception as in the wild state, when it has to obtain for itself each and every meal.

In India these cheetahs may be seen tied to bedsteads and holding a place of their own among their keepers' families. The latter seem not in the least to fear the beasts. The cheetahs are carried to the scene of action with loads on, and these are removed when the animal is shown the quarry.

Nile Valley Ideal Land

Egypt's geography explains why the country became a center of one of the two earliest civilizations. Here the adjoining deserts protected primitive man from the inroads of wild beasts or human enemies. The Nile floods gave him fertility without the suffering that rain would have caused his unprotected body. He had no winter worthy of the name and thus in an ideal environment he became relatively prosperous and built a civilization.

The monuments of the early Egyptians have been preserved by the extraordinary climate. Where there are rain and snow, infiltration of moisture and freezing, stone is a poor bulwark against time. But Egypt is a country where there is no rain or snow, no freezing. Here a stone carved and placed outdoors is placed there virtually forever, for there is no decomposing force.—Kansas City Times.

Reduced Road Costs

Reduced expenditures in the construction of roads are predicted in the paper of A. J. Brownson, a director of the National Automobile Chamber of Commerce, presented recently before the National Crushed Stone association convention. "In our factories we are constantly seeking to improve details so as to provide the public with improved vehicles at the same cost or even lower," said Brownson.

HELPS POLICE

John D. Rockefeller's costly car was commandeered by Patrolman Leroy Sprout of Manhattan in overhauling traffic violator. Sprout didn't know he was using oil king's machine till arrest was made. Rockefeller rewarded cop with five shiny dimes.

Defy Rain to Buy Antiques

Bayers At Cohen's Sale of Antiques Undaunted by Weather—Sale to Continue Saturday and May Be Continued One Day Next Week.

The downpour of rain Thursday did not stop the sale of antiques of Aaron Cohen at 48 Main street and there were many articles disposed of during the day. The auctioneer, Edward Sisson of J. B. Sisson's Sons of Poughkeepsie, has found that the stock of antiques is so large that it will be impossible to dispose of them during the three days which were announced and the sale is to be continued Saturday. There are still several hundred lots to be disposed of at 48 Main street and there are many more at the Cohen farmhouse which will be brought over and

offered at auction. Prices have been low considering the quality of the authentic stock which is being offered. It is estimated that there are at least 2,500 more lots to be disposed of and it is possible that the sale will have to be extended to one day next week.

All of the stock must be disposed of as the building at 48 Main street has been leased to the Kingston Trust Company which will occupy the building while the Trust Company building is being remodeled. The sale will continue rain or shine, a large tent having been erected on the adjoining lot where the sale is conducted in case of bad weather. During the noon hour the members of the Henrietta Wynkoop Guild of the First Dutch Church served lunch.

Mr. Sisson, who has handled antiques all his life and who has presided over many sales and auctions, says he has never seen so large and so varied a collection of authenticated antiques offered at one auction before. The Messrs. Cohen have spent years in making the collection.

Still Hope for Safety of Redfern

Brunswick, Ga., Sept. 2 (AP).—Repeated disappointments in the wake of groundless rumors concerning the fate of Paul Redfern, missing Georgia aviator, have failed to dim the hope of the populace here that the flier will be found alive within the next few days.

Despite the fact the whereabouts of Redfern was unknown after more than a week of silence since he hopped from this city last Thursday noon bound for Rio de Janeiro, the belief prevailed here that reports of an unidentified plane sighted in Venezuela indicated strongly that the aviator reached the southern continent.

The latest disappointment came yesterday with official denial of a report from Para, Brazil, that Redfern's plane had fallen in the vicinity of Alemquer, on the northern bank of the Amazon river, approximately 300 miles west of Macapa, at which point the flier intended to drop flares indicating whether he would fly onward to Rio or cut short his journey by lack of fuel or another reason and head toward Pernambuco.

Young Girl Is Burned to Death

When Kerosene Can Explodes—Little Hope Held Out for Recovery of Mother, Who Was Also Burned.

Corning, N. Y., Sept. 2 (AP).—A seven year old girl was burned to death and her mother is in a serious condition in the Coudersport, Pa., Hospital as the result of an explosion of kerosene yesterday.

The fire occurred at the home of Mrs. Carl Hanchet, near Coudersport, when Mrs. Hanchet was starting a fire in the kitchen stove. In some unknown manner the flames communicated to the cap, which exploded, throwing flaming oil over the bodies of both mother and daughter. The child died within a few hours and little hope is held for the mother.

The fire spread so rapidly that it could not be checked and the entire house was destroyed with all furnishings.

News of the Day In Wall Street

New York, Sept. 2 (AP).—Dubilier Condenser Corporation had a net loss of \$122,980 for the year ended June 30, in contrast to net profit of \$38,233 the preceding year, or 13 cents a share.

Heavy construction projects proposed throughout the country the last week will involve expenditure of \$43,950,000 the McGraw-Hill construction daily reports.

Surplus of the Wabash railway for the first seven months this year fell to \$1,477,077 after charges, from \$2,851,218 in the same period of 1926.

New financing in August is placed at \$406,268,169 by the Journal of Commerce, compared with \$403,816,200 in July, and a gain of \$149,136,690 over August last year. The total for the eight months of 1927 was calculated at \$5,081,028,106 an increase of \$1,178,424,377, over the same period of 1926.

Dance at Olive Bridge. The regular Friday night dance will be held at Olive Bridge this evening. Music by Naisenhelder's band.

Advises Against Further Flights

Warnemunde, Germany, Sept. 2 (AP).—Professor Hugo Junkers, airplane manufacturer who is on a vacation here today telegraphed the crew of the Junkers transatlantic plane Bremen advising them that he had grave misgivings about their intention of leaving for America so late in the season.

As arguments against the enterprise, he said "the nights are long and the changes of weather rapid, so that the flight, from the standpoint of scientific investigation and the advancement of aviation, is no longer promising."

Berlin, Sept. 2 (AP).—Questioned as to the reaction of the Bremen's crew to the message from Prof. Junkers, the Berlin representative of the Junkers works replied laconically: "Well, they are continuing to study the weather maps."

Ahl Loses Three Fingers. Joseph Ahl, a young man employed at the Manhattan shirt factory, while at work Thursday afternoon was injured when three of his fingers were amputated. He was taken to the Kingston City Hospital, where the injured hand was dressed by Dr. Daniel Connelly.

PICNIC!

A Picnic which was to be held last Sunday for the benefit of the SACRED HEART SOCIETY will be held SUNDAY, SEPT. 4 AT HASBROUCK PARK

In case of rain it will be held at the White Eagle Hall, Delaware Ave. The public is cordially invited to attend.

More Deeds and Mortgages Filed

There were 299 mortgages filed in the Ulster county clerk's office during the month of August against 279 filed for record during August 1926. There were 265 deeds and other transfers of realty filed last month against 356 filed during August 1926.

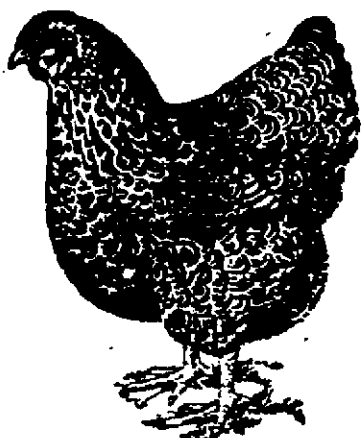

155 AVIATORS ENTER NATIONAL AIR RACE

Spokane, Wash., Sept. 2 (AP).—A total of 155 military and civilian pilots have filed application with the National Air Derby Association of this city for participation in the air derbies from New York and San Francisco to Spokane, the non-stop race from New York and the National Air Races here September 23 and 24. Ten days remain during which applications will be received. Fourteen planes have been entered for the \$15,000 non-stop flight across the continent, which starts September 21.

BLUEBIRD SPECIALTY SHOP

323 Wall St.

In the Reader's Kingston Theatre Building

ANNOUNCEMENT.—This is one of the Bluebird Specialty Shops from New York and has no connection with the former Bluebird Shop of Kingston.

Dance at High Falls.

A special cotillion dance will be held Saturday night at B. W. S. Hall, High Falls. Buses will leave the main post office at 8 and the Van Rensselaer Hotel at 8:15. Music by Maitzenholder's Band. The regular Sunday night dance will be held as usual.

ROAD BUILDING

BETTERMENTS OF COUNTRY'S ROADS

"Less than twenty-five years ago the first automobile successfully negotiated the trip by highway from Detroit to New York city. It took a full week to get there," says Roy D. Chapin.

"A complete set of replacement parts had to be carried with the car, since service stations did not exist. "Early in the trip the tires fell into the habit of deflating at intervals of from ten to fifteen miles.

"Time and again the road stretched into seemingly bottomless mud. Frequently extra horse power was required to extricate the vehicle from difficulty.

"The direction of the road to New York was uncharted. For that matter, the road to points but from twenty-five to thirty miles distant was unknown to a majority of those questioned as to directions.

"Today the same trip is made comfortably in three days, without a stop for repairs, assistance out of mud-holes, or delay in seeking directions. "More than 110,000 motor cars carried visitors into the national parks from every state in 1925.

"Uncle Sam is delivering us each day on nearly 1,250,000 miles of improved highways. "Recent surveys in Ohio indicate that passenger cars from other states varied from 9 per cent of the traffic to 30 per cent on through routes. At one point 60 per cent of these foreign cars were from Pennsylvania, West Virginia, Kentucky, Indiana, Michigan and New York. The remainder represented other states from California to Maine, as well as the Dominion of Canada.

"A uniform national highway policy has been very largely responsible in making possible an easy flowing interchange of motor vehicles between different parts of the country. In point of actual accomplishment the United States emerged from the 'dark ages' of highway building in the United States. In point of actual accomplishments, we are centuries removed. "The United States has today 8,000,000 miles of highways, ranging from mere trails to the highest type of improved road.

"Half a million miles have some type of surfacing. "A central system of highways has been established, the federal 7 per cent system accounting for approximately 200,000 miles.

"Both state and general governments are putting every energy behind the early completion of this system. More than 60 per cent of it is now improved to some extent."

Highway Markers to Be Changed in Wisconsin

Re-marking of the Wisconsin highway system to involve nearly half the state trunk routes has been ordered by the Wisconsin highway commission.

The commission already is rushing preliminary plans for the revised system, drawing new maps and deciding on new numbers for many of the state trunk routes has been ordered. The changes will entail a vast amount of work in changing highway numbers, revising maps and changing markers on the highways themselves. Changing markers on the highways will commence as soon as frost has left the ground in the spring, when officials hope to have everything in readiness so as to be able to finish actual re-marking of the routes in a comparatively short time.

The highway commission voted to revise the numbers of the state trunk highway system to conform to the numbering of the new United States routes, of which there are 14 in the state.

The commission decided also that there will be no state highway numbers on federal routes, thus avoiding the confusion which would result from the appearance of two different numbers on the same highway.

Good Roads Items

More than \$1,000,000,000 was spent on roads in the United States during 1926.

The relationship of the car and the road is of vital importance to industry and to the farmer.

The present year promises to be the greatest in the history of California highway development.

Canada has about 250,000 miles of travelable roads; of these, about 54,000 miles are gravel and higher type.

More than 250,000 pounds of salt were used on Akron, Ohio, streets this winter to make the billy thoroughfares safe for motorists.

The sum of \$1,120,000,000 will be spent on roads in the United States this year, but even that will not keep all the automobiles out of the ditch.

If any kind of paving material is to be dropped from the preferred list it must as well be the material that offers the least resistance when the stilties cut holes in it.

SPECIAL DANCE

George's New Hall, COTTRELL
SATURDAY, SEPT. 3
Maitzenholder's Orchestra.

PARISIAN HIT

Hallie Stiles, American soprano, has made a tremendous hit at the Opera Comique, Paris. She is here shown in costume for "Madama Butterfly."

Belief About Jerusalem

Jerusalem was believed by the early Hebrews to be a central point of the earth and therefore exceptionally stable.

Legion Clambake Rain or Shine

American Legion Clambake on Labor Day Will Be Held Inside if it Rains—Advance Sale of Tickets Has Been Satisfactory.

Rain or shine, the American Legion clambake will be held Labor Day at Torino's Grove on the South Ashokan boulevard, the committee in charge decided today.

If the weather threatens to wash away the festivities, arrangements have been made to hold the baze inside Torino's Inn, where dining rooms and enclosed porches will accommodate everybody. If the affair is forced inside by unfavorable weather, the committee has arranged for social entertainments.

Hoping that fair weather will favor the occasion, the committee has arranged for various outdoor sports, including a baseball game. For those wishing to go fishing after the baze, the Ashokan Reservoir offers great possibilities for the ambitious angler.

The advance sale of tickets has been very satisfactory to the com-

mittee and a large crowd is expected. Free transportation from the Legion Building will be offered for those wishing it.

Tickets for the clambake will be sold at the American Legion Building on Saturday, Sunday, and up to 1 p. m. Monday, which is the time the first bus leaves for the grove.

Speed Limit of Vision

Two experimenters, Dr. P. W. Cobb and F. K. Moss, have measured the eye's speed limit. Your eye moves on a stop system as it sees or reads they say in Popular Science Monthly. After thousands of tests on eleven subjects they found that to distinguish an object the average eye must stand still for about one-seventh of a second. No amount of added illumination will speed it up. Most homes and factories are not brightly enough lighted to have reached the limit that these tests showed.

Card of Thanks.

We wish to thank our relatives, friends and neighbors for their many acts of kindness during the illness and at the time of the death of my wife and mother Hannah Carlin, also for the many beautiful floral tributes.

Signed,
THOMAS CARLIN AND FAMILY.

MARILYN BACK

Marilyn Miller, popular musical comedy star, snipped on her return from Paris. Marilyn came down the gangplank in a chic Parisian creation.

Legal Profession Has Its Patron Saint, Too

The journalists have their patron saint. He is St. Paul. But the lawyers have one, too. He is St. Yves, who earned the fitting title of "The Advocate of the Poor." At his festival the refrain is said to be sung, "Advocates sed non latro, res miranda populo" ("An advocate, but not a thief, a thing well known beyond belief").

In pictorial art the saint is commonly represented accompanied by a cat, symbolical, according to an unkind suggestion, of the characteristics of the profession. There is a legend that when he presented himself at the gates of Paradise, St. Yves was asked by St. Peter, "Who are you?" St. Yves replied, "An advocate." "Come in," said St. Peter, "for we have not yet a lawyer."

His right to be in paradise having been subsequently disputed and his removal urged, "I can not resist," said St. Yves, "but it must be done regularly; my expulsion must be notified to me by a sheriff's officer." No such functionary could be found in paradise and so St. Yves remained among the blessed.

Sealing Wax Is Used Extensively in the Arts

Sealing wax is perhaps less important than it was before mullage envelopes came into use, but never was so useful artistically. Many a delicate decorative object that appears to be enamel ware or carved and painted wood or colored glass turns out to be merely molded sealing wax. Pendants and beads and artificial flowers, plaques and vases and candlesticks are among the objects beholden for their beauty to this material. Molding it, many an untrained woman has done so in home craftsmanship.

A lump of sealing wax on the end of a steel knitting needle melted over a flame and cooled in a glass of water, shaped with a molder and decorated by melting in other colors becomes a handsome bead. A metal-rimmed pasteboard tag covered with warmed sealing wax, shaped when soft into bunches of grapes or flowers, becomes a "drop" to finish the necklace. Earrings and pins and hat ornaments are made in the same way.

PIRATES SEIZE CHINESE VESSEL NEAR HONGKONG

Hongkong, Sept. 2 (P).—Pirates seized the Chinese steamer Koochow, flying the British flag, last night at Lingyang Gorge, on the West river. Twelve of the pirates boarded the vessel, shot the captain while he was at dinner, and then shot the chief engineer, throwing the body overboard.

The Koochow was taken to Taipetow, where more pirates helped to loot the ship. The captors and his staff, with 169 Chinese passengers were carried off as prisoners.
